

How Lumin Sign stacks up

See why teams choose
Lumin Sign for Salesforce over
legacy document platforms

Lumin Sign vs the competition

See how our pricing, implementation speed, customer support and enterprise capabilities compare to market alternatives.

Competitor analysis

Lumin Sign	DocuSign	Conga
Pricing		
\$18 per user per month	Starting at \$45/user/month with enterprise minimums	Custom quotes, complex SKU structure, typically \$30-50+/user/month
Implementation		
Live in days with guided setup	Weeks with complex configurations	Weeks to months, requires dedicated admin
Verified Signing		
Cryptographic identity verification with government credentials	Standard eSignature only	Standard eSignature only
Support		
Hands-on support for all customers	Premium support reserved for enterprise tiers	Support level varies by contract tier

Competitor analysis

Lumin Sign	PandaDoc	Adobe Sign
Pricing		
\$18 per user per month	Starting at \$35/user/month + Salesforce add-on costs	Starting at \$30/user/month, complex bundles with Adobe products
Implementation		
Live in days with guided setup	General tool with Salesforce as add-on, integration basic sync	Weeks, part of broader Adobe ecosystem
Verified Signing		
Cryptographic identity verification with government credentials	Standard eSignature only	Standard eSignature only
Support		
Hands-on support for all customers	General sales document support	Support varies by Adobe license tier

The Salesforce integration built for teams like yours

Enterprise capability without enterprise cost

Enterprise-level features without the complex pricing model.

What you get:

- ✓ Unlimited templates and workflows
- ✓ Complete Salesforce integration
- ✓ Document preview and PDF creation
- ✓ Standard and Verified Digital Signing
- ✓ AI-ready architecture

Built for business users, not just admins

Your team shouldn't need training to use document software. Lumin Sign works directly in Salesforce – no platform switching required.

What's included:

- ✓ One-click document preview
- ✓ In-context editing
- ✓ Real-time signature tracking
- ✓ Drag-and-drop template setup

The Salesforce integration built for teams like yours

Support that actually shows up

Hands-on support for teams of any size. Whether you have 2 users or 200, you get the same responsive service.

What's included:

- ✓ Dedicated onboarding
- ✓ Fast response times
- ✓ Template setup support
- ✓ Ongoing optimization
