

Rich Text Editor for Flow

By Synebo

Release Notes

1.2.0

Current Release Highlights: Bug Fixes

In this release, we focused primarily on resolving bugs reported by our customers.

Fixed Bugs:

- 1. Debug Mode Error:**

Several customers reported an error occurring while running the flow in Debug mode.

Results:

1. The global Debug mode error has been resolved.
2. The package version has been optimized for improved performance.

Notes:

If you already have the package installed, please update to the latest version to apply these fixes.
