THE LOUIS LAW FIRM PLLC
ACCIDENT & INJURY ATTORNEYS
YOUR TRUST. OUR RESULTS.™

AT A GLANCE

Founded in 2010, Louis Law specializes in personal injury across five states. Their collaboration with NuLaw since 2021 has yielded remarkable results in their key performance metrics: speed and service quality.

CHALLENGES

Louis Law needed transparency into their staff's engagement with individual cases. They needed to merge their marketing efforts into operations. They needed to consolidate software vendors. They needed custom reporting. They also needed to easily engage with outside counsel and partnerships on cases and reporting.

SOLUTIONS

Louis Law began with a successful implementation designed for seamless data migration. Our collaboration extended to tailoring NuLaw's platform for each specialty practice area, ensuring immediate functionality while strategically positioning for ongoing growth and refinement.
