HARDHAT^H INTELLIGENCE

Realize the value of
your data

Data insights need to be available when and where people work and make decisions. HardHat intelligence is a suite of features available with HardHat Connect. Whether its at-a-glance awareness in the context of daily tasks or slicing and dicing years of data to explore insights, providing easy and smart ways to analyse, present and understand your data is all available in HardHat. Tap into HardHat's full power to predict and understand from your operational data:

- What happened?
- Why did it happen?
- What changed over time?
- What could happen?

HARDHAT^H FUSION

See the full picture by
connecting your data

HardHat Fusion is a library of integrations which allow you to connect your own systems into HardHat where we can add context and value for your people.

The more connections made across your business, the more valuable your data becomes because we can see the the bigger picture to uncover hidden growth opportunities or have greater ability to reduce and avoid risks.

HardHat Intelligence is layered on top of HardHat Connect, allowing you to use this predictive analytics engine on any of your existing data to gain insights and intelligence across your operations.

Analytics

Make better, faster decisions on a complete, AI-driven analytics platform.

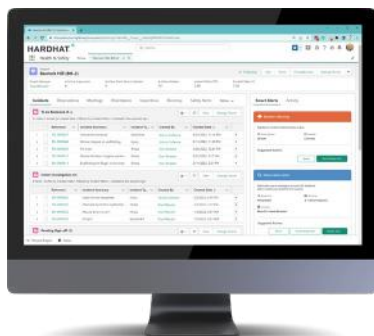

Prediction Builder

Get predictions, recommendations, and more using transparent, no-code AI.

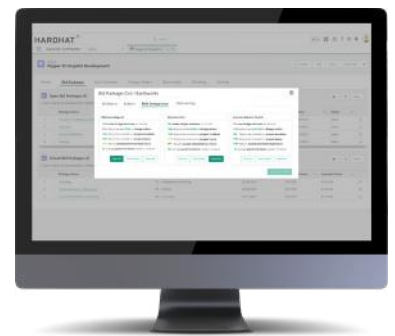

Smart Alerts

Tailored alerts and notifications automated into your workers workflows.

Decision Driver

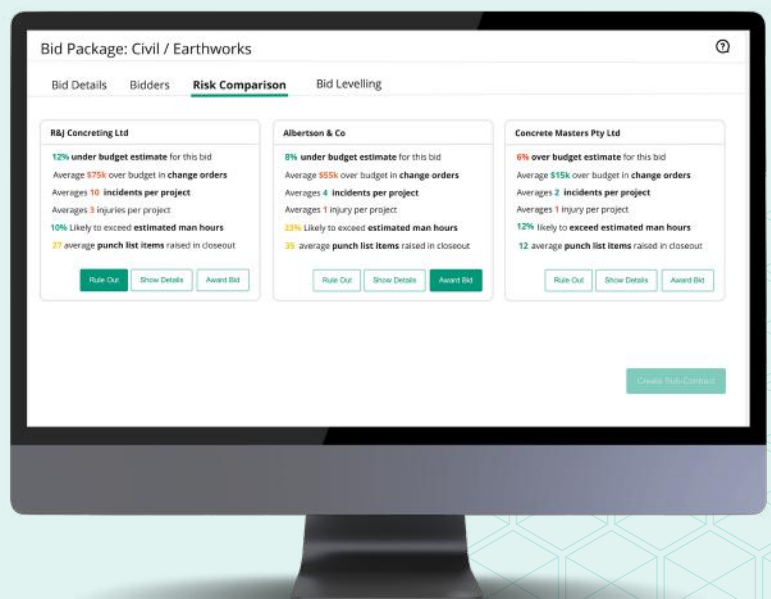

Create intelligent experiences for your entire company with cutting-edge augmented analytics.

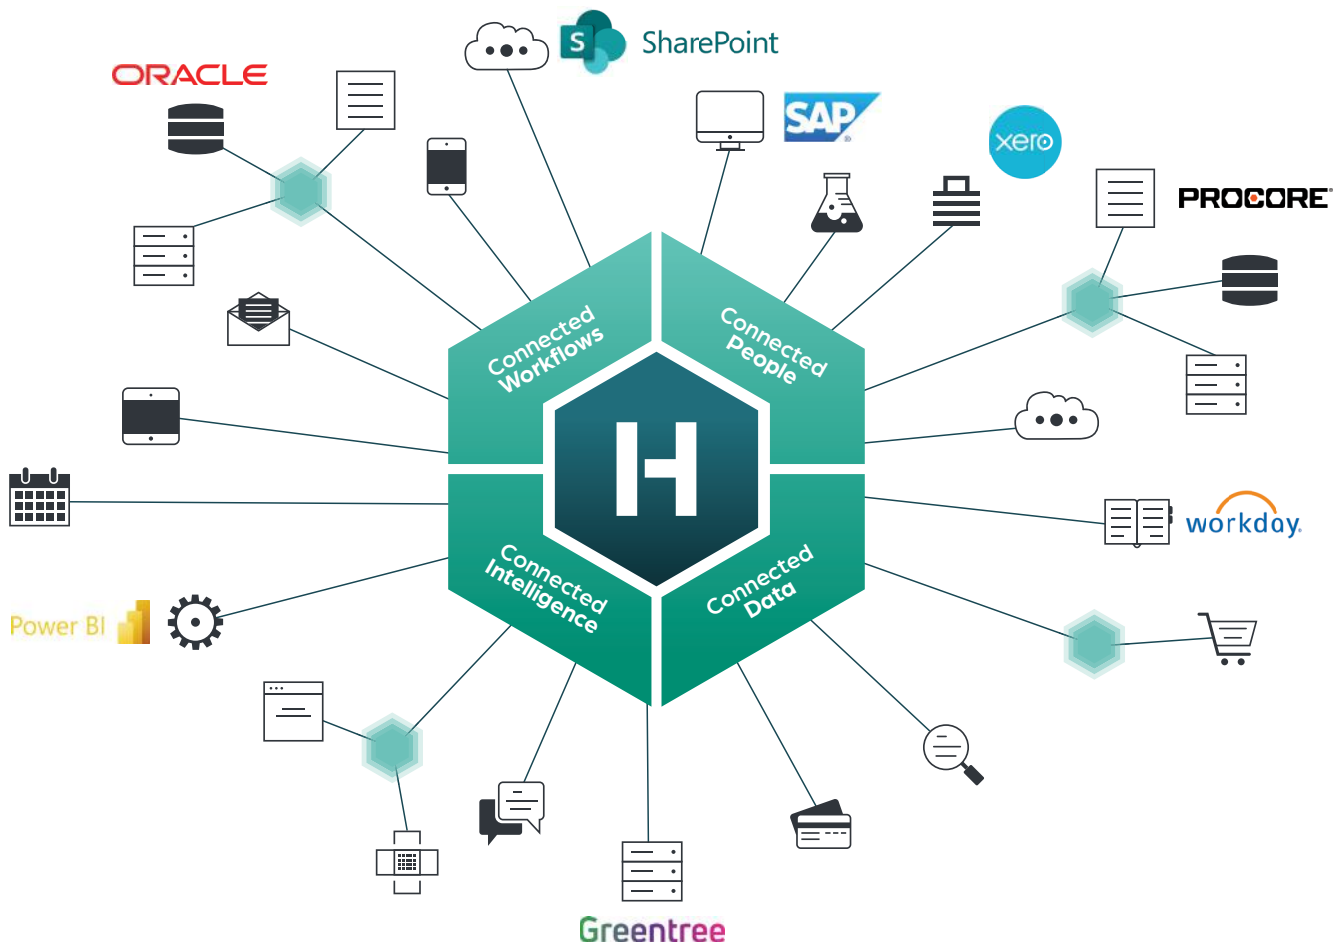

Decision Driver

HardHat's Decision Driver feature helps your workers make better decisions by bringing powerful analytics directly into high-stakes decision points.

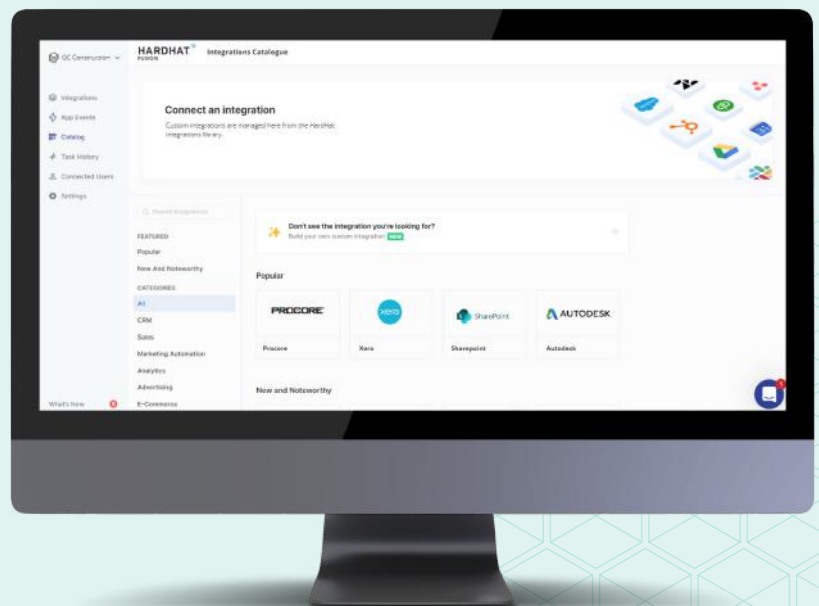

With Decision Driver, you get the right data when and where you need it so that you can make more informed decisions.

HardHat Fusion is our library of integrations which allow you to connect your own systems into HardHat to gain richer context and value out of your data.

Working with our professional services group with years of real-world experience to discover and understand your tech stack, they can guide you through the process of connecting HardHat to your ecosystem and maximize the value of your data.

Connected Construction starts with HardHat

HardHat believes a connected construction business can lead to a safer, more productive and more profitable operation. That's why we created the industry's first complete Connected Construction Solution built on Salesforce.

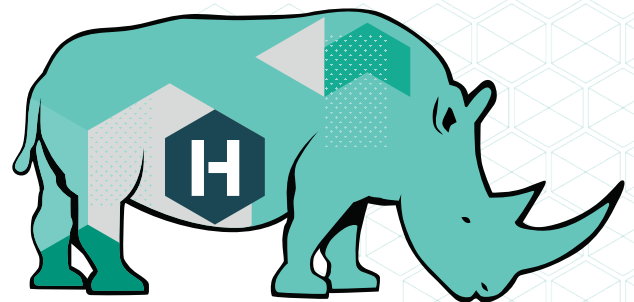

HardHat's solution spans across business development, pre-construction, health & safety, workforce management and project delivery.

HardHat connects data, real-time intelligence and automated workflows from every phase of the construction process into one solution.

Protecting Rhinos for future generations

HardHat is passionate about protecting the Southern White and Black African rhinoceroses for future generations. By choosing HardHat, you are having an indirect impact on assisting the fight to save these majestic animals. HardHat has partnered with The Australian Rhino Project (TARP) to provide funding and support for the relocation of white rhinos to open plain facilities in Australia and New Zealand. HardHat is also an exclusive major partner of Black Rhinos at Monarto Safari Park (South Australia) supporting the expansion of their Black Rhino facility.
