

Native Project Installation:

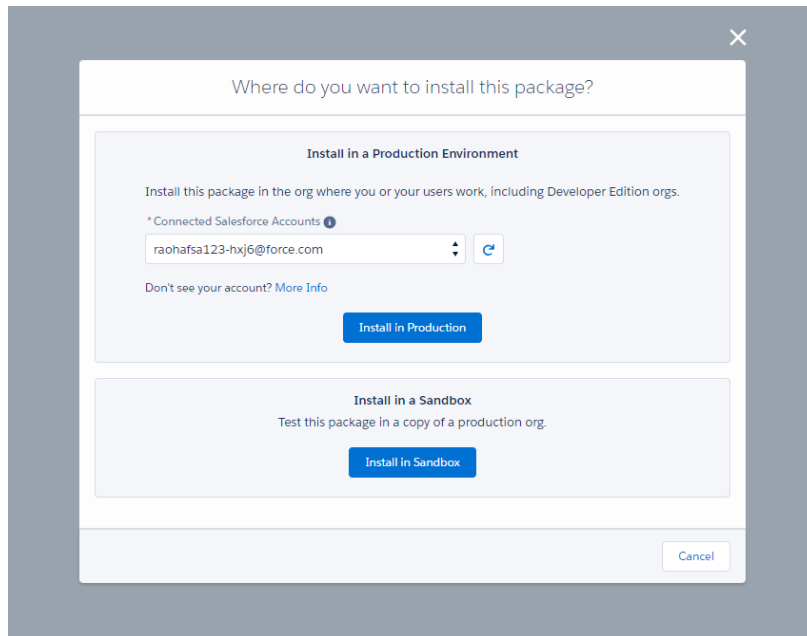

Installing Native Project is simple. Just go to [AppExchange Native Project](#) and click the **Get It Now** button.

The screenshot shows the AppExchange listing for 'Native Project' by NativeERP LLC. The page includes a search bar, navigation links (Home, Explore, Collections, Consultants, Learn), and a 'Sign Up' / 'Log In' button. The main content area features the 'Native Project' logo, a description 'Empower your team to achieve project success and friendly UI', and a 'Salesforce App' badge. Below this are buttons for 'Get It Now' and 'Test Drive'. The pricing is listed as '\$12 USD/user/month'. The 'Business Need' section includes 'Enterprise Resource Planning' and 'Project Management'. The 'Requires' section shows 'None'. The 'Compatible With' section lists 'Sales Cloud', 'Service Cloud', and 'Marketing Cloud Engagement'. Two preview images are shown: 'Project Scheduler' and 'Projects Gantt'.

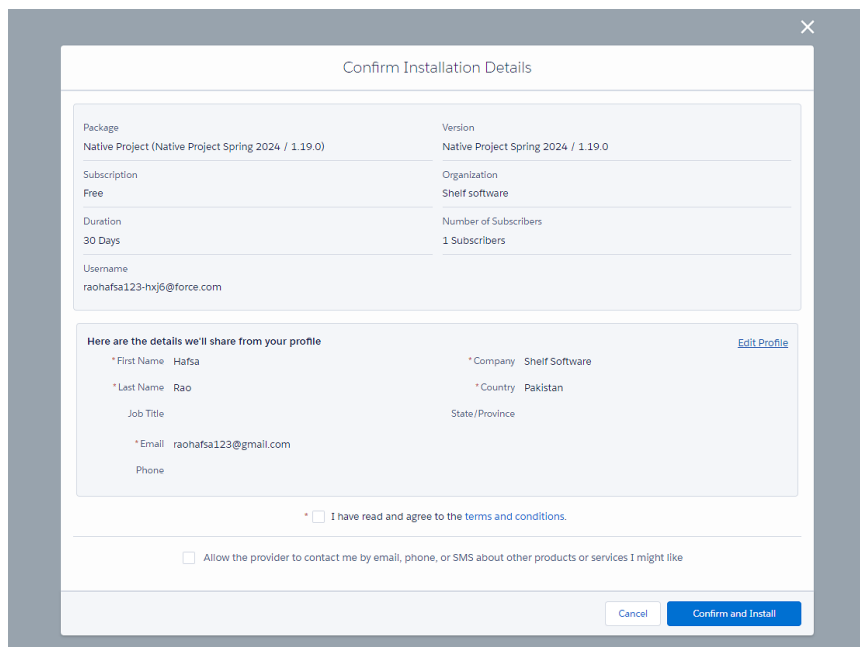

Now, you can click **Login** to get your Trailblazer.me account::

Choose where you want to install the package according to your preference.

Confirm installation details, agree to the license terms, and click **Confirm and Install**.

Select package accessibility and click **Install**.
