

# Fuel Gas Eater User Guide

April 7th, 2023

**Futer-kun**

Hi my owner,

I'm Futer-kun, and I grow by consuming CO2 emissions as my staple food. I'm especially fond of exhaust emissions from cars and airplanes.

How often do you drive to work or travel by plane?

If you switch to a more eco-friendly option, I can consume the equivalent amount of CO2 emissions that would have been released. For example, If you have a remote meeting instead of visiting a customer by plane, it would be a luxury meal for me.

Can you please help me grow by reducing CO2 emissions on your daily commute and business trips?

Thank you.

Fuel Gas Eater

# Solution

## Fuel Gas Eater

Fuel Gas Eater is a powerful tool for reducing CO2 emissions caused by transportation, such as commuting and business trips, works on Net Zero Cloud.

### Target Scope & Categories

- Scope 3 Category 6 - Business Trip
- Scope 3 Category 7 - Commuting

### Features

1. Calculation of CO2 Emissions Reduction
2. Visualization of Reductions
3. Motivate employees to reduce CO2 emissions
4. Quickly register for the Commute today

# Admin Set-Up

# Enable Net Zero Cloud features

The screenshot shows the Salesforce Setup interface. The top navigation bar includes a search bar labeled "Search Setup" and several utility icons. The left sidebar contains a search bar with the text "net" and a list of navigation items under "Feature Settings". The main content area is titled "Net Zero Settings" and contains several toggle switches for enabling features. The "Net Zero Cloud" and "Manage Carbon Accounting" features are highlighted with orange boxes and are currently turned on. Other features like "Manage Building Energy Intensity", "Manage Data Gaps", and "Manage Scope 3 Procurement Hub" are currently turned off.

# Assign “Fuel Gas Eater User” Permission Set to User

The screenshot shows the Salesforce Setup interface. The left sidebar contains navigation links: Setup Home, Service Setup Assistant, Multi-Factor Authentication Assistant, Release Updates, Lightning Experience Transition Assistant, Salesforce Mobile App, Optimizer, and ADMINISTRATION. Under ADMINISTRATION, there is a 'Users' link with a dropdown arrow, which is expanded to show 'Permission Set Groups', 'Permission Sets' (highlighted), 'Profiles', 'Public Groups', 'Queues', and 'Roles'.

The main content area is titled 'Permission Sets' and shows the 'Fuel Gas Eater Admin' Permission Set. The 'Manage Assignments' button is highlighted with an orange box. Below this, the 'Permission Set Overview' section displays the following details:

| Permission Set Overview     |                            |
|-----------------------------|----------------------------|
| Description                 | Fuel Gas Eater Admin       |
| License                     |                            |
| Session Activation Required | <input type="checkbox"/>   |
| Last Modified By            | User User, 2023/04/01 1:17 |
| API Name                    | Fuel_Gas_Eater_User        |
| Namespace Prefix            | fgedev                     |
| Created By                  | User User, 2023/04/01 1:17 |

Below the overview, the 'Apps' section is visible, containing the following links and descriptions:

- Assigned Apps**: Settings that specify which apps are visible in the app menu
- Assigned Connected Apps**: Settings that specify which connected apps are visible in the app menu
- Object Settings**: Permissions to access objects and fields, and settings such as tab availability
- App Permissions**: Permissions to perform app-specific actions, such as "Manage Call Centers"
- Apex Class Access**: Permissions to execute Apex classes

# Assign “Net Cloud Manager” Permission Set to User

The screenshot shows the Net Zero Cloud Manager Setup interface. The top navigation bar includes a search bar labeled "Search Setup" and several utility icons. The left sidebar contains a "Quick Find" search bar and a list of setup categories: Setup Home, Service Setup Assistant, Multi-Factor Authentication Assistant, Release Updates, Lightning Experience Transition Assistant, Salesforce Mobile App, Optimizer, and ADMINISTRATION. Under ADMINISTRATION, the "Users" section is expanded, showing "Permission Set Groups", "Permission Sets" (highlighted), "Profiles", "Public Groups", "Queues", and "Roles". The main content area is titled "Permission Sets" and displays the "Net Zero Cloud Manager" permission set. A table provides details about the permission set, including its description, license, session activation requirements, and last modified date. The "Manage Assignments" button is highlighted with an orange box. Below the table, the "Apps" section lists various settings that apply to Salesforce apps, including Object Settings, Flow Access, Custom Metadata Types, and Custom Setting Definitions.
