

Panaya's Smart Testing

Empowering **salesforce**
to grow with your business

Panaya is the only All-in-One Testing Platform combining Test Automation, Test Management, and Change Intelligence to guarantee seamless operations with minimized risk. Panaya Smart Testing ensures your Salesforce system remains stable as the business grows, enabling uninterrupted performance, maximizing productivity, and maintaining high levels of customer satisfaction.

Smart Testing for Salesforce

Designed for all your testing needs

All-in-One Platform

Streamline testing workflows

Establish a unified quality hub for managing all Salesforce testing activities, including requirements, planning, execution, defect management, and real-time monitoring.

Codeless Ease of Use

Make testing accessible for all team members

Create robust automated scripts effortlessly, within just one hour of onboarding, reducing reliance on technical experts.

Fast Lane to Automation

Expedite transition to automated testing

Leverage your existing manual test repository, accelerating the pace of automation adoption.

Cross Application Testing

Enhance system integration and mitigate risks

Conduct cross-app testing, identifying potential points of failure and inconsistencies across your interconnected digital landscapes.

AI Generated Tests

Simplify test creation

Easily convert complex business processes into a complete testing suite with Panaya's AI engine, supported by extensive expertise in Salesforce Metadata Analysis.

“

Panaya ensures our sales teams can focus on hitting revenue targets instead of fighting system deficiencies.

Linda Sirmans

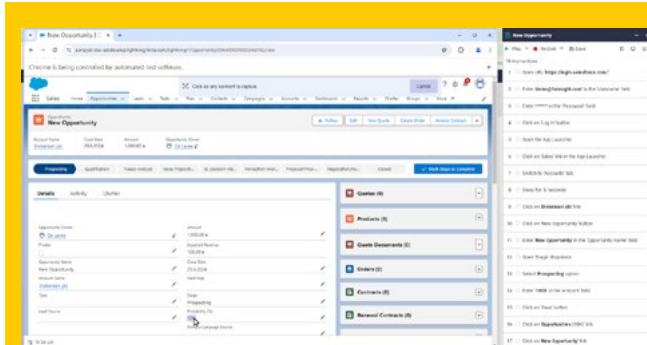

Director of Digital Transformation Technology

Test Smarter, Deliver Faster

Panaya's Salesforce testing solution empowers companies to automate effortlessly and deliver rapidly. With real-time monitoring and collaborative testing, organizations ensure efficiency and compliance.

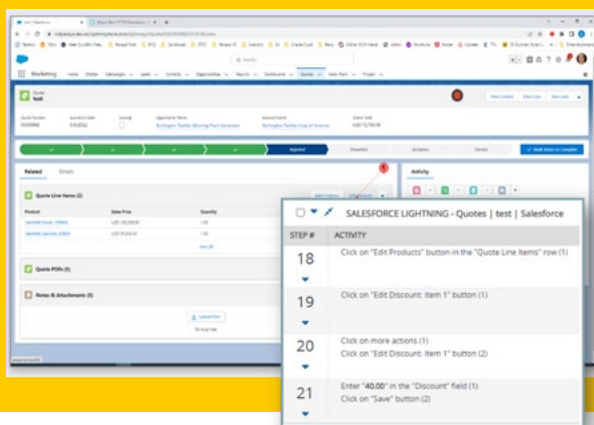

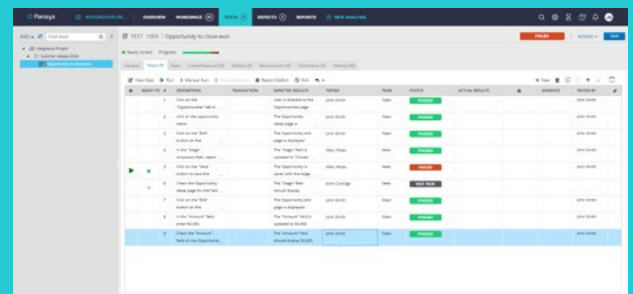

Codeless Test Automation

- Automate business processes with a user friendly approach for non-technical users.
- Seamlessly combine pre-recorded components.
- Create and manage your automation schedules with a click of a button.

End-to-End Test Management

- Test your business processes end to end from planning to execution to defect management.
- Manage collaborative and sequenced testing processes with automatic notifications and instant insights.

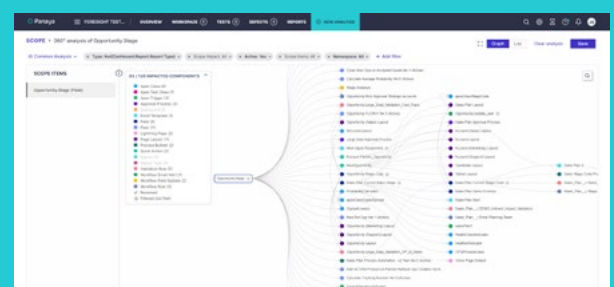

Enterprise Ready

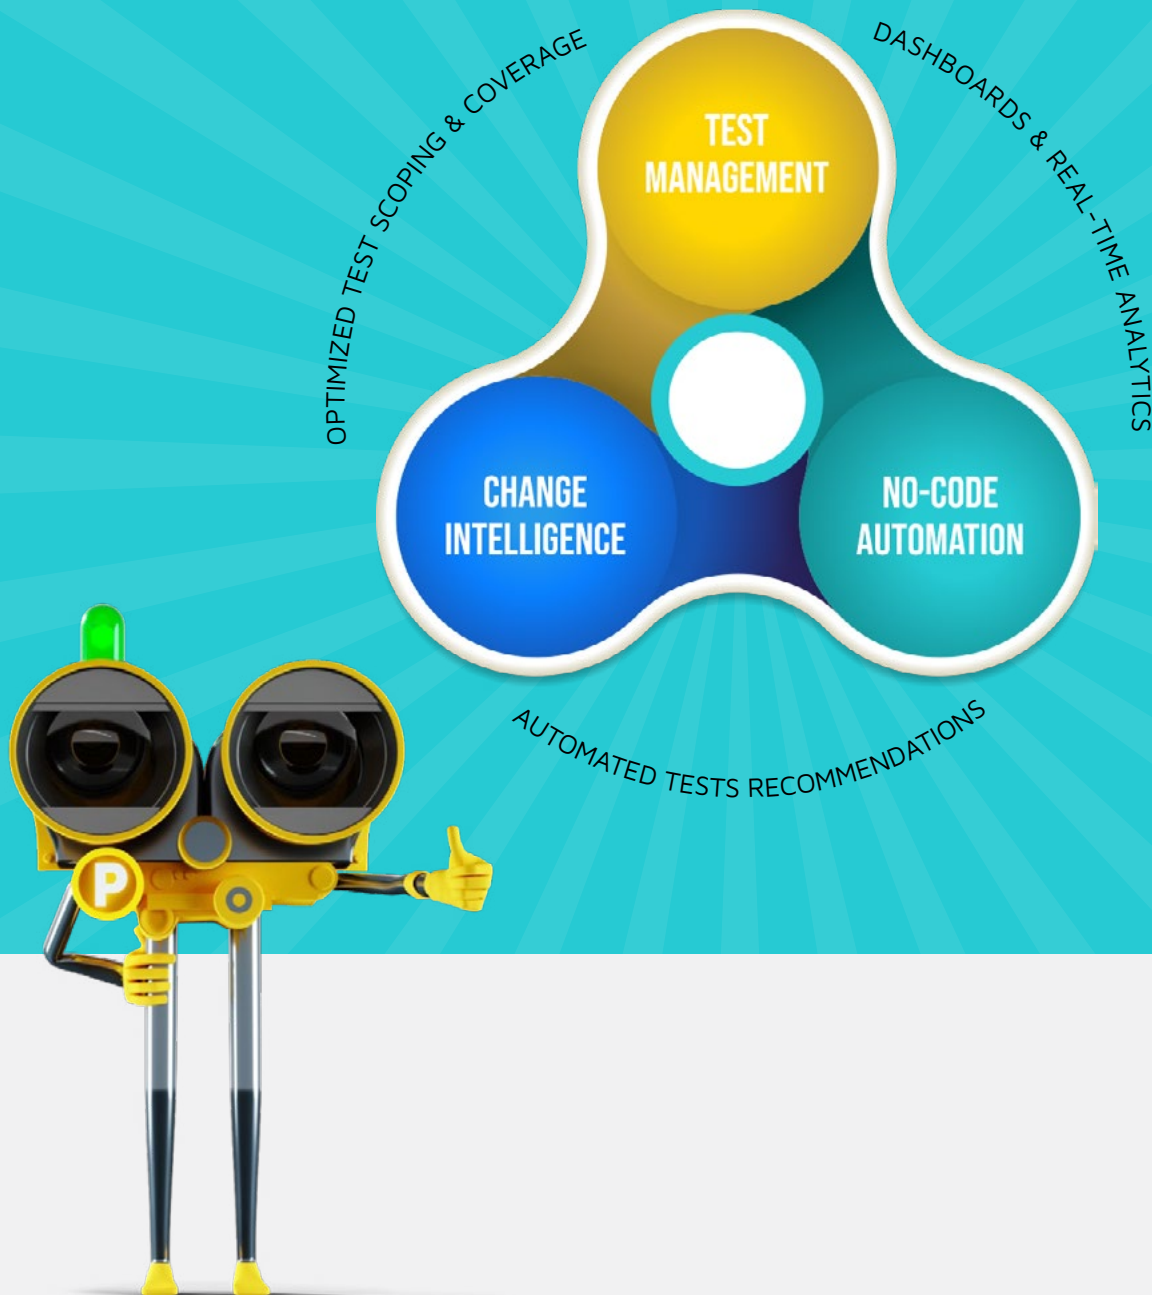

- Capture users' interactions and screenshot for audit-ready test documentation and compliance.
- Unify IT and business methodologies on a single platform by streamlining the testing process and supporting quality initiatives like TCoE and Testing Factory.

AI-Powered Metadata Analysis

- Integrate Shift Left practices into development by running impact analysis in the design stage to shorten test cycles and reduce production bugs.
- Increase resiliency and ease of maintenance by using metadata-driven tests that automatically update with Salesforce changes.

One Platform For all your testing needs

About Panaya

Panaya enables organizations to accelerate application change and continuously deliver innovation with its Change Intelligence Platform. Enabling enterprise agility with faster release velocity and uncompromising quality, Panaya delivers an optimized user experience with end-to-end visibility of the application lifecycle. Since 2006, 3,000 companies in 62 countries, including a third of the Fortune 500, have been using Panaya to deliver quick quality change to enterprise ERP & CRM applications.
