

The Unified Healthcare Engagement Engine

Beyond EHR. Architecting the Future of Integrated Care.

Break down silos between your front office, clinical teams, and billing departments with the only specialty-specific EHR built natively on Salesforce that orchestrates the entire patient journey, from first contact to final payment, on a single, intelligent infrastructure.

Smart Contact Center (Intake & Engagement)

The Value: Convert leads into patients faster with intelligent routing, Omnichannel communication (Voice, SMS, Email) and automated VOB (Verification of Benefits).

The Value: Convert leads into patients faster with intelligent routing, Omnichannel communication (Voice, SMS, Email) and automated VOB (Verification of Benefits).

Patient Experience Portal

The Value: Modernize the patient journey and maximize revenue with a frictionless, branded digital gateway with automated clean claim engine and management dashboards.

Key Benefits: Self-service scheduling, digital intake/consents (DocuSign native), and integrated one-click payments connecting clinical actions directly to financial outcomes

Clinical Core (Specialty-Specific EHR)

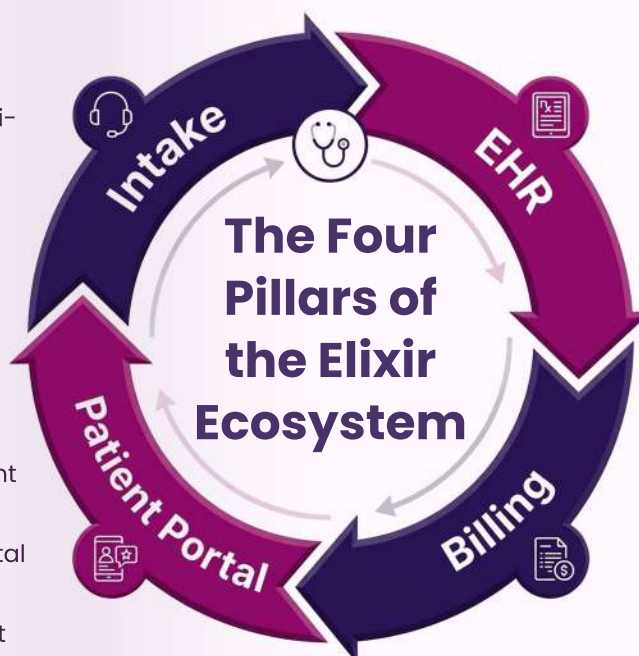

The Value: An ONC-certified, high-performance clinical environment that thinks like a provider with AI-assisted documentation ensuring audit-ready reporting.

Key Benefit: Customizable clinical templates, and dynamic care planning, all mobile-ready for bedside care.

Revenue Cycle Engine (RCM & Billing)

The Value: Maximize collections by connecting clinical actions directly to financial outcomes and increase retention through digital-first patient experience.

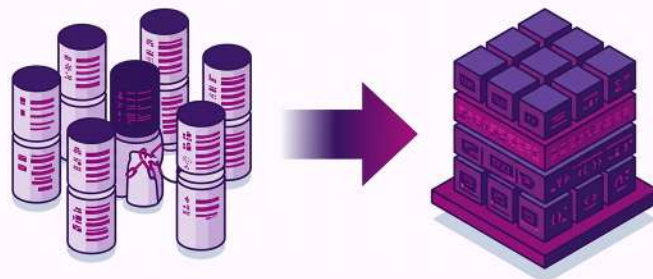

Key Benefit: automated clean-claim scrubbing, cost of care calculator for upfront estimations, self-service scheduling and real-time denial management dashboards.

The Enterprise Challenge

Traditional EHRs are clunky, disconnected silos that frustrate users and increase burnout. This creates data friction, provider burnout, and revenue leakage.

Elixir re-architects the patient journey into a single, real-time database with no APIs, no syncing delays, and 100% data integrity. Elixir EHR dissolves these boundaries, providing a Single Source of Truth that empowers your team to focus on what matters: the patient.

Integrations & Credibility

Platform: Native Salesforce (Health Cloud & Community Cloud compatible).

Clinical Tools: LabCorp / Quest / HL7 Generic / Surescripts.

Financials: Stripe / Merchant Accounts / QuickBooks / NetSuite.

Trust: Ranked as a major contender in Everest PEAK Matrix; ONC Certified.

Proven Outcomes

30% Reduction

in Administrative "Pajama Time" for Providers.
