

PASSAGE TECHNOLOGY

Passage Technology creates and publishes AppExchange apps and provides Development Services to over 20,000 Salesforce customers. The company was founded in June 2008 by Jerry Reid and Brent Gossett, and today our team has excelled by following our core principles.

Our core principles are centered on opportunities which have focus, divergence from competition, and deliver on a valuable purpose for our customers. Customer satisfaction is the company's highest priority, and the Passage Technology team works together to ensure a successful experience.
