

Custom Timeline Milestone Process

MEASURE SALESFORCE PROCESSES IN HIGH-RES!

“ SALESFORCE SYSTEM ADMINISTRATOR

Solu-Timeline is a Salesforce Native app designed to provide organizations with a high-resolution view of their business processes. With Solu-Timeline, users can track, automate, and measure their business processes with maximal visibility, to drive efficiency and improve the bottom line.

The application is amazing very easy to use with a lot of options that doesn't exist in Salesforce Milestone. The service is great!! very talented guys, that really give themselves to make it suitable and easy for you. I really recommend this app, it worth every penny and more!

”

MEASURING PROCESS MADE EASY

✓ Maximal customization capabilities
