coResolute

GTM systems done right. No drama, just results.

RevOps & Salesforce consulting for mid-market companies | Austin, TX + Pune, India | coresolute.com

Who we are

We're operators serving operators. coResolute builds production-ready Salesforce and AI systems for mid-market companies that already run Salesforce and need it to work. Our strategy team sits in Austin and our delivery team in Pune, with 2-3 people on every project, so no single developer can disappear. When something breaks, we ask how to fix it, not which contract clause covers it.

Where we step in

Fighting fires

The platform launched but barely works. We triage, clear the backlog, clean up the code and get you operational.

Timeline: 3-24 months

Starting fresh

New Salesforce builds done right: strategy, architecture, implementation, training and go-live support.

Timeline: 3-6 months

Drowning in backlog

Your CRM works but your team can't keep up. Monthly managed services for admin, improvements and projects.

Timeline: Monthly retainer

Automating manual work

Agentforce, Flow, Apex, RPA and API work. We start with a proof of concept and take it to production.

Timeline: 6 weeks-6 months

How we work together

1. Diagnose

A free 2-week health check of your Salesforce, CRM or GTM landscape. No invoice, no sales pitch.

2. Fix what matters

Clear scope, fixed price, finite timeline. Updates, not surprises.

3. Stay or step aside

Ongoing support, or a clean handoff with documentation and training.

Client results

400 to ~0

tickets: a broken Salesforce implementation rescued and stabilized

60%

lower RevOps costs by moving to our hybrid onshore/offshore model

85%

fewer manual tasks for a 175-year-old insurance and finance company

3,000

knowledge articles moved into Data Cloud to power Agentforce

Platforms

Salesforce Sales, Service and Marketing Cloud, Account Engagement, Experience Cloud, Agentforce, Data Cloud, MuleSoft, plus HubSpot, Marketo and ServiceNow integrations.
