

Maximize Revenue. Minimize Denials. Master Your RCM.

Stop losing revenue to fragmented billing systems. Elixir RCM provides a high-performance, automated financial engine built natively on Salesforce to accelerate your cash flow.

Schedule Your Revenue
Discovery Call Today

Traditional medical billing is a black box of manual entries and disconnected data. Elixir RCM turns your billing department into a System of Intelligence. By connecting clinical actions directly to financial outcomes on a single platform, we eliminate the friction between Care Delivered and Payment Received.

Key Highlights for Decision Makers

Unified Patient Financial Record

View clinical notes, Eligibility Verification, and claim status on one system. No more logging into three different portals to resolve a single denial.

Automated Clean Claim Engine

Built-in scrubbing and validation rules ensure that claims are accurate before they ever leave the system, significantly increasing your first-pass rate.

Real-Time Eligibility & Estimations

Verify coverage and calculate patient responsibility at the point of care.

Seamless Integration with EHR & CRM

Because Elixir is native to Salesforce, your billing team has instant access to the documentation they need to fight denials without chasing down providers.

Modernize Your Revenue Cycle. Contact Us Today.

Performance that scales with your practice.

Reduce your Days Sales Outstanding (DSO), lower administrative overhead, and ensure 100% of your clinical work is captured and compensated. Ready to see the future of revenue management?

Platform Overview

Elixir RCM is a comprehensive financial orchestration platform that automates the end-to-end Revenue Cycle, from pre-authorization and charge capture to claim submission and payment posting. Designed for complex specialty care, it ensures financial integrity while providing real-time visibility into the health of your practice.

The Pillars

Easy Referrals & CRM

Manage inbound/outbound referrals and nurture patient leads within a unified Salesforce ecosystem.

Personalized Screens & Workflows

Fully customizable UI designed to match your specific specialty and unique clinical preferences

AI assisted Medical Coding

Expedite charting with intelligent templates and multi-signature capabilities on any device.

Automated Eligibility Verification

Real-time eligibility checks at the point of intake to ensure coverage and reduce preventable denials.

Intelligent Claim Management

Integration with clearinghouses for electronic submission, tracking, and automated follow-up on aging accounts.

Customizable Billing Workflows

Configure rules for private pay, third-party insurance, and lab-specific billing to match your unique operational needs.

AI Assisted Denial Management

Advanced analytics to identify root causes of denials, allowing your team to fix systemic issues rather than just individual claims.

ERA Management & Auto-Posting

Automatically ingest Electronic Remittance Advice (ERA) to reconcile payments instantly, reducing manual data entry errors.

Key Benefits

- Accelerate Cash Flow:** Reduce the time between service delivery and bank deposit.
- Increase First-Pass Clean Claims:** Drastically lower the rate of rejections and rework.
- Enhance Financial Transparency:** Real-time KPIs for billing managers and executive leadership.
- Improve Patient Experience:** Provide clear, accurate bills and easy payment options through the Patient Portal.
- Reduce Provider Burnout:** Automate the hand-off from clinical documentation to billing codes.
