

E-Onboarding & Workflows Solution

Challenges of Manual Onboarding and Workflows

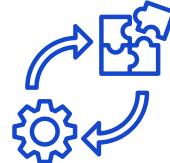

Disconnected Manual Processes

Incomplete or Incorrect Submissions

Lack of Visibility and Tracking

No Real-Time System Integration

No Integrated Signing or Approval Process

DocStudio automates document intake, processing, and approvals. Branded web forms, automated workflows, e-signatures, and real-time integration ensure accurate submissions, smooth approvals, and reduced manual work.

Built for Every Industry. Ready for Every Workflow

Employees

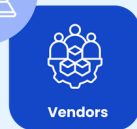

Customers

DocStudio supports the onboarding of customers, vendors, partners, and employees on a single, unified platform.

It's designed to serve a wide range of industries, from healthcare to banking to logistics. Whether you're a retailer managing new SKUs or a nonprofit onboarding volunteers, DocStudio brings structure, speed, and visibility to every workflow.

Partners

Vendors

All You Need for Efficient Onboarding

DocStudio eliminates PDFs, emails, and manual entries. Share forms via link or embed them in portals, route documents for review, and capture legally binding signatures with full traceability. Validation rules ensure accuracy, while real-time integration keeps your internal systems up to date. With secure storage, access control, and compliance tracking, DocStudio helps you streamline operations and grow with confidence.
