

From batch to shelf – all in one platform

Goldfinch helps consumer goods brands **manage inventory, batch production, traceability, and finance** — without leaving Salesforce.

Consumer Goods Use Cases

Product Traceability

Lot, serial, and expiration tracking across ingredients, batches, and finished goods — recall-ready in minutes.

Inventory & Distribution

Real-time visibility across warehouses, bins, and channels — DTC, wholesale, and retail in one view.

Supply Chain Planning

Forecast demand using Salesforce data, then auto-generate purchase and work order suggestions.
