

Multi-event ticketing for the modern world.

Elevent is the ticketing and membership platform for the most idiosyncratic, distinctive events and venues. It's an audience-growth platform that goes well beyond basic tickets to isolated event, embedded in your own look and feel, data-first, across all channels, and built to scale.

SCOPE OF SERVICES

- Access to Elevent through eCommerce web sales, Box Office, Entry, Back Office, and Reporting applications.
- Integrate with embedded widgets, buttons, webhooks, and an API for seamless website integration.
- Collaborative kick-off sessions and support during the initial configuration phase.
- Elevent offers dedicated and knowledgeable client support, ensuring event organizers receive prompt assistance and expert guidance throughout their ticketing journey.

KEY FEATURES

Reserved Seating:

featuring multi-section layouts, multiple seat-plans per venue, mixed GA/Reserved seating layouts, and select-your-own-seats online and from the box office.

White-label, integration with your event guide and website:

Advanced functionality, integrated memberships, personalized customer experiences, and reserved seating.

Mixed-Mode Shopping Cart:

In one transaction, customers can buy an array of items in a single checkout.

Combined Concessions and Ticketing:

All membership-compatible.

Well-structured data and organization-wide reporting:

Access valuable insights effortlessly.

Inventory Control:

including passes & package and everything that can be sold, at all points of sale, universally locked globally for true cart and omnichannel control.

Passes & Packages:

Multi-event Passes and Ticket Packages given priority status.

Allocation-first inventory control:

VIPs receive top-notch treatment.
