

Chargent for Commerce Cloud

Shorten Your Commerce Project with Prebuilt Payments.

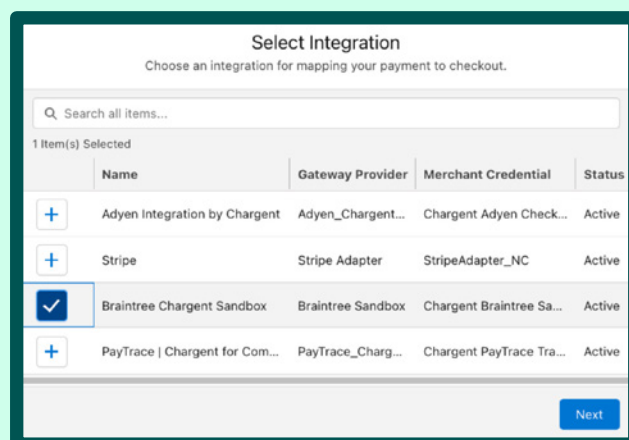

Start selling more, with a frictionless payment process that buyers don't have to think twice about – simple, secure, and enabled anywhere in Salesforce.

And, with digital commerce data centralized in Salesforce alongside your retail purchase records, you can deliver personalized, data-driven customer experiences to better connect with customers.

Collect revenue faster by simplifying commerce payments at scale.

- Get to market faster by quickly connecting your payment gateway to Salesforce Commerce Cloud, no development or integration work.
- Add secure, consumer-friendly payments to your commerce site today.
- Customer and payment data is all captured in Salesforce, putting an end to data silos.
- Now natively integrated with back-end functions like order management.

Deliver the frictionless commerce experience your customers expect.

Easily connect your payment gateways directly to Salesforce Commerce Cloud
