Cards Carousel

Release Date: 2024-04-20

Highlight

The PSC card carousel allows multiple pieces of featured content to occupy an allocated amount of space and not just images. The content can be lightning cards or any kind of custom lightning components such as lightning cards, videos, text, images etc.

Documentation

Components

pscaccs:cardsCarousel

pscaccs:setupCarouselPage

pscaccs:setupCarouselPageItem

The pscaccs:cardsCarousel presents a carousel container featuring multiple carousel pages, with only one page visible at any given moment. These pages are arranged horizontally inline, with adjacent content revealed as users click the next action on the carousel.

Within the cardsCarousel, multiple pscaccs:setupCarouselPage components can be incorporated. The initial page is automatically activated upon opening the carousel. Each setupCarouselPage has the capacity to accommodate numerous pscaccs:setupCarouselPageItem elements, allowing users to display custom cards tailored to their preferences.

At present, there are no public properties accessible for configuration in this version.

Next is an example of standard cards carousel.

```
<pscaccs:cardsCarousel>
  <pscaccs:setupCarouselPage>
    <pscaccs:setupCarouselPageItem>
      <lightning:card>1. Card Body (custom component)</lightning:card>
    </pscaccs:setupCarouselPageItem>
    <pscaccs:setupCarouselPageItem>
      <lightning:card>2. Card Body (custom component)</lightning:card>
    </pscaccs:setupCarouselPageItem>
  </pscaccs:setupCarouselPage>
</pscaccs:cardsCarousel>
```

Example of 2 pages 3 pageitems in a carousel.

```
<pscaccs:cardsCarousel>
  <pscaccs:setupCarouselPage>
    <pscaccs:setupCarouselPageItem>
      <lightning:card>
        <aura:set attribute="title">
          <lightning:icon iconName="utility:connected_apps" size="small"/>
          Custom Title
        </aura:set>
        <aura:set attribute="footer">
          <lightning:badge label="Tag1"/>
          <lightning:badge label="Tag2"/>
          <lightning:badge label="Tag3"/>
        </aura:set>
        Card Body (custom component)
