SPEND ANALYTICS

This Tableau Accelerator allows you to:

- **Assess & Monitor** your volume of spend
- **Better** understand your spend allocation across spend categories and suppliers

Answer key business questions

- What is our spend volume?
- Which spend categories drive the most purchasing value?
- From which vendor are we buying those spend categories?
- How many active vendors do we work with?
- Who are our top vendors? What are we buying from them?

Monitor and improve KPIs

- **Total Spend**: Total Spend amount (expressed in currency)
- **Active Vendors #**: Total number of active suppliers (at least one purchase transaction over the period)
- **New Vendor #**: Number of new vendors (first purchase transaction over the period)
- **Spend per Vendor**: Average amount spent per vendor (expressed in currency)

Required attributes

- **Date** (*date*): Spend date
- **Vendor** (*string*): Vendor, supplier...
- **Spend Category** (*string*): Purchase category
- **Spend Amount** (*numeric*): Spend amount
