

TargetRecruit provides enterprise software to staffing and recruiting companies and is built on Salesforce, the world's most flexible and powerful platform.

Native to Salesforce

Easy Automation

Highly Customizable

Powerful Integrations

Detailed Configuration

Robust Reporting

Front Office

Our Front Office recruitment software is fully configurable to match any of your recruiting workflows. It is a powerful end-to-end system designed to source, engage, and place the right candidates in the shortest possible time.

ATS

Improve business relationships and always give your customers and candidates what they want. Leveraging the world's #1 platform, TargetRecruit has redefined the way staffing and recruiting firms manage and accelerate the customer and candidate lifecycle.

Middle Office

Our Middle Office is the command center for timesheets, pay and bill. It bridges the gap between the front office and the back office payroll and accounting systems, and offers centralized visibility, speed and control.

Reports and Dashboards

Our reports and dashboards provide a wealth of real-time knowledges to our customers so they can spot trends early and make smart, data-backed decisions for their company.
