

ACCESSIBLE DOCUMENT GENERATION FOR SALESFORCE

Accessible PDFs. Native to Salesforce.

Gutenberg PDF helps Salesforce teams build, automate, edit, and deliver professional documents with accessibility-first output, native security, and practical service at every step.

PDF accessibility first

Semantic structure, text alternatives, tables, metadata, and form usability built into the document workflow.

Salesforce native

Generate documents close to your records, permissions, files, buttons, Flows, and business processes.

Easy to use

Point-and-click templates for admins and business users who need control without custom code.

Why Gutenberg is different

Most document generators focus on visual output. Gutenberg focuses on accessible, structured, Salesforce-native PDFs from the start.

- ✓ PDF/UA-focused output
- ✓ Accessible fillable forms
- ✓ No third-party document handoff
- ✓ Flow-ready generation
- ✓ WCAG 2.1 Level AA workflows
- ✓ Data stays in Salesforce
- ✓ Platform-driven permissions
- ✓ Agentforce-ready workflows

ACCESSIBILITY IS NOT AN ADD-ON

It is the product.

Accessible Documents

- ✓ Semantic tagging
- ✓ Text alternatives
- ✓ Color and contrast support
- ✓ Language metadata
- ✓ Table accessibility
- ✓ Structured reading order

Accessible Forms

- ✓ Field labels
- ✓ Instructions
- ✓ Keyboard navigation
- ✓ Logical focus order
- ✓ Error prevention
- ✓ Fillable PDF fields

Native Security

- ✓ Data stays in Salesforce
- ✓ No third-party document engine
- ✓ Platform-driven permissions
- ✓ Record-driven generation
- ✓ Works with Salesforce Files
- ✓ Admin-friendly architecture

Powerful Features

- ✓ Point-and-click templates
- ✓ Custom fonts
- ✓ Dynamic tables and images
- ✓ Conditional content
- ✓ Edit generated PDFs in Salesforce
- ✓ Flow and Agentforce ready

Built for teams with real accessibility obligations

Gutenberg supports organizations navigating PDF accessibility expectations, including WCAG 2.1 Level AA, PDF/UA, Section 508, Title II, EN 301 549, and UK PSBAR-aligned workflows.

Nonprofit Boost

Mission-based pricing and support for nonprofit teams.

Implementation

Help turning requirements into working templates and Flows.

Training

Enable admins and users to build and maintain documents.
