Learn Evolve: Level 1

More and more companies are leveraging certification programs to guide customers through their learning, but are often forced to cobble together individual tools to create them, making both administrative and learning experiences more complex.

Intellum helps you get ahead of the customer education curve with a single solution for secure end-to-end certification program delivery – from basic to legally-defensible programs, everything you need to build a world-class initiative is in one platform.

Propel Learners to Mastery

Certifications are a powerful way to level up learner proficiency, drive engagement, increase retention, foster loyalty and advocacy, and even increase revenue.

With Intellum, you'll have all the tools you need to implement and measure on key certification initiatives, whether high or low stakes, and map them to business impact.

83% of working age adults said a certificate program improved their work skills, while **58%** said it was useful in increasing their pay.
