

Salesforce That Performs. Data You Can Trust.

Decisions That Deliver.

We help businesses get more from Salesforce and the data that surrounds it, independently or together.

— WHO WE ARE

A Salesforce Partner since 2019, LogicSpree brings together two practices: Salesforce Services and Data & Analytics Services.

Whether Salesforce is the center of your stack or one piece of it, we connect your CRM, data platforms, and analytics so your teams can make decisions with confidence.

— OUR PRACTICE AREAS

Salesforce Services

Implement, optimize, and manage Salesforce around how your teams actually work.

LogicTest · Scored org assessment and clear roadmap.

Implementations · Built around how your teams actually work.

Managed Services · Ongoing admin, support, and improvement.

Transformations · Modernize an org that has outgrown its build.

— THE LOGICSPREE DIFFERENCE

- ✓ **Direct access to certified talent**
You work directly with the people responsible for your solution, from strategy through ongoing support.
- ✓ **Salesforce and data expertise**
One team that understands both your CRM and the data platforms around it.
- ✓ **A 5-star customer experience**
Clear communication, responsiveness, and predictable execution.

Data & Analytics Services

Build reliable data foundations, with or without Salesforce.

DataMap · Identifies where your data journey breaks down, why, and where to focus first.

Data Engineering · Reliable, reusable pipelines across systems.

Data Quality & Governance · Clean records and shared definitions.

Analytics & BI · Tableau and Power BI reporting people trust.

— THE 5-STAGE DATA JOURNEY

Trust has to be built at every stage, in your CRM and across platforms.

01 Storage

02 Sourcing & Transfer

03 Hygiene

04 Transformation

05 Maintenance

START HERE

Not sure where your data is breaking down? Start with the DataMap.

A focused assessment of your data journey that identifies where trust breaks down, what's causing it, and where to focus first.
