

Education First creates over 1 million documents every year with speed and accuracy using Aveneer.

“With Aveneer, we are able to generate documents in bulk in express speed.”

Anuj Kapoor, VP Salesforce Practice at Education First

Customer Profile

Education First is a global education company with over 50,000 employees specializing in language training, educational travel, academic degree programs, and cultural exchange.

Challenge

- Legacy document generation solutions was slow and failed to meet performance requirements.
- A solution was needed to efficiently handle document generation during certification periods.
- Effective multilingual document generation was required for operations in 250 cities across 60 countries.

Aveneer Value

- Fast and reliable document generation during peak admission, enrollment, and graduation periods.
- Capable of bulk generating up to 1,000 documents at once, efficiently handling up to 100,000 documents each month.
- Automation of customized document creation tailored to each country in multiple languages.
- Streamlines document generation for marketing and recruitment by automatically assembling and distributing relevant materials to prospective students.
