

reCAPTCHA for Experience Cloud - Installation/Upgrade Guide

Navigate to the appExchange Listing of reCAPTCHA for Experience Cloud

<https://appexchange.salesforce.com/appxListingDetail?listingId=a0N3A00000FYq5vUAD>

The screenshot shows the Salesforce AppExchange interface. At the top, there's a navigation bar with 'AppExchange | AgentExchange' and links for Home, Explore, Collections, Consultants, and Learn. A search bar is present. Below the navigation bar, a banner promotes a redesigned trial experience. The main content area features the 'reCAPTCHA for Experience Cloud' listing by Niantec. It includes a 'Component' badge, a 4.67 average rating from 12 reviews, and two buttons: 'Get It Now' and 'Try It'. A heart icon is also visible. The listing is marked as 'Free' and 'Never requires payment'. The 'Business Need' is 'Productivity'. The description states: 'Integrate Google reCAPTCHA in Salesforce Experience Cloud. Lightning Ready and works with Lightning Locker and Lightning Web Security.' The supported versions are listed as reCAPTCHA v3, v2 Invisible, and v2 Checkbox. The Niantec logo is at the bottom right of the listing card.

Upgrade reCaptcha for Experience Cloud

By

Upgrade Complete!

Please review the instructions below to properly configure this app. [View in another browser](#)

reCAPTCHA Post Install Steps

Navigate to tab "reCAPTCHA Configuration" and perform the post install steps.

Done

App Name	Publisher	Version Name	Version Number
reCaptcha for Experience Cloud		Version 1.3	1.3

Installation/Upgrade is successful.

Important Note:

Customers upgrading from older version need to perform STEP 2 of the configuration again. The URL for the script recaptcha.js will change after the upgrade.

STEP 2: Include script to Head Markup

Generate Script tags for Head Markup

Copy the below script tags to Head Markup.

```
<script src="/resource/1756326405000/antec__recaptcha/recaptcha.js"></script>  
<script src="https://www.google.com/recaptcha/api.js?render=_gCAPTCHA_SiteKey_" async defer></script>
```

Note: The script src is unique for each org.

- If your experience cloud is not running on the root "/", include the folder name before the /resource for the recaptcha.js
- For reCAPTCHA v2, replace "_gCAPTCHA_SiteKey_" with "explicit" (without quotes).
- For reCAPTCHA v3, replace "_gCAPTCHA_SiteKey_" with actual SiteKey
