WFM

Leverage enterprise-grade workforce management, natively built on Salesforce. So, you can put the right workers at the right place at the right time.

Optimize shift coverage

Create and fulfill large-scale orders that auto-match and auto-distribute shifts to workers with compliance.

Engage talent

With mobile solutions, workers can update availability, accept or reject shifts, see pay information, and request work.

Uncover insights

Gain visibility into your entire process to monitor and optimize your performance.

Offer client self-service

Digitize and automate client access to staff rating and shift requests to improve client satisfaction.

“Shift scheduling is paramount to our business. [WFM] has been very powerful for us. We’ve been able to get more granular in terms of shift details we track, rates and rate cards, travel details – and customize that to our business...It flows through our entire organization.”

Tom McLain, Chief Information Officer, Medicus
