

INCOME STATEMENT

An income statement or profit and loss account is one of the financial statements of a company and shows the company's revenues and expenses during a particular period. It indicates how the revenues are transformed into net income (or net profit).

This Tableau Accelerator allows you to:

- Appraise your financial results (profits & losses): Income Statement, Waterfall, Annual Report
- Realize some simulations on your Income Statement (What-If Analysis)

Answer key business questions

- What is the financial status of the organization?
- What is the performance of the organization?
- What is the expected future growth of the organization?
- How much profit has the organization generated?
