We have over 20 years of experience developing sophisticated, data-driven solutions that help our customers automate investigative due diligence research and capture clear, actionable risk intelligence. Our advanced analytical models uncover key insights by connecting billions of records drawn from robust public, private and proprietary data sets — including 130 million company profiles from 250+ licensed company databases. Start building a clearer picture of risk today and make more-informed decisions about individuals, assets and business entities.

LexisNexis® InstantID® Business

Accelerate identity verification for businesses and associated individuals, and improve connection verification by up to 30% to better assess potential risks. Use InstantID Business to help you evaluate up to 25% more U.S. businesses than other solutions, streamline approvals, sidestep hidden risk and capture untapped opportunity.

LexisNexis® Business Search

Verify details on commercial entities: where they're located, what they do and when they were formed. Accelerate investigative workflows with sophisticated analytics models that detect links between disparate records, helping you gain intelligence about any people and entities connected to a business — even when relationships aren't clear.

LexisNexis® Small Business Credit Score Report

Easily vet more than 30 million U.S. small and mid-sized businesses (SMBs) and optimize lending terms with unmatched alternative data insights. Mitigate risk, grow your SMB market segment and decision no-file and thin-file applicants with increased confidence.

LexisNexis® SmartLinx® Business Report

Develop a clearer understanding of the companies you do business with, and the people, assets, civil and criminal records associated with those businesses, with deeper insight into: bankruptcies, liens and judgments, corporate filings, UCC filings, business registrations and other associated businesses. Simplify cross-referencing of records, enhance due diligence and accelerate internal processes.
