Connect functional areas across project and operational lifecycles. Connect back office to front by drawing on connected data, intelligence and automated workflows for smarter and faster actions.

Asset and Equipment Management

- Keep visibility of assets and equipment across your projects
- Maintain a detailed digital library of your assets, including fixed assets (e.g. HVAC systems), heavy vehicles and fleet, down to toolboxes and individual equipment items.
- Set up custom maintenance and inspection schedules along with notifications and alerts

Document Control

- HardHat provides out-of-the box file and document storage with version and permission control
- Document and file integrations with Procore, Autodesk and Sharepoint
- Uploading documents into HardHat uploads into the source system

Quality Inspections

- Quality Inspections linked to customized digital checklists
- Set re-occurring inspection schedules
- Configure flagged responses on checklists to highlight issues
- Record related issues (Defects, tasks etc) during inspections
- Configure customized review and approval processes

Digital Forms and Checklists

- Empower your workers in the field with powerful digital forms and checklists
- HardHat's digital forms feature allows you to digitize all the elements of your operations
- Help your teams capture consistent data, identify areas of improvement, share reports and collaborate across working teams
- Simple and easy to convert paper-based or PDF checklists into scalable digital forms

Connecting every phase of construction

HardHat believes a connected construction business can lead to a safer, more productive and more profitable operation. That's why we created the industry's first complete Connected Construction Solution built on Salesforce.

HardHat's solution spans across business development, pre-construction, health & safety, workforce management and project delivery.

HardHat connects data, real-time intelligence and automated workflows from every phase of the construction process into one solution.

Protecting Rhinos for future generations

HardHat is passionate about protecting the Southern White and Black African rhinoceroses for future generations. By choosing HardHat, you are having an indirect impact on assisting the fight to save these majestic animals. HardHat has partnered with The Australian Rhino Project (TARP) to provide funding and support for the relocation of white rhinos to open plain facilities in Australia and New Zealand. HardHat is also an exclusive major partner of Black Rhinos at Monarto Safari Park (South Australia) supporting the expansion of their Black Rhino facility.
