Find out why customers rated us 4.5+ on G2 and Capterra

"I love that Lumin Sign shows me these categories: need to sign, waiting for approval, approved, and rejected. It's nice to see that on the home dashboard and know exactly what files I'm waiting on."

Roslyn M.
Digital learning Coach

"For our team, the ability to create and reuse templates is a huge time saver. It keeps things consistent and eliminates the hassle of setting things up from scratch every time."

Vanshika S.
BDM

"It is simple and not overly complicated. I cannot think of anything I dislike. I also use PanDoc and have been quite impressed with Lumin Sign."

Stephanie H.
