Kulturra Payment Center and Salesforce

How Salesforce and Payment Center work together?

- As a native app, we extend Salesforce by providing payments and invoicing functionality.
- Data on your Salesforce CRM (opportunities, quotes, orders) can be easily transformed into invoices.
- Your customers can pay online using their web browser, from their mobile device or using a payment terminal.

- Kulturra Payment Center can be seamlessly integrated with Salesforce Communities.
- With our solution, it will be easy to monitor all outstanding invoices and upcoming payments.

FEATURES

-  Online Payments (credit card, ACH)
-  Subscriptions/Recurring Billing
-  Auto-Bill Pay
-  Batch Payments
-  Advance Payments
-  Installments
-  140+ Supported Processors
-  Invoicing
-  Fully customizable "invoice templates"
-  Automatically sync to Quickbooks Online

REVIEWS

Our commitment to security, reliability, and exceptional customer service speaks for itself, but you don't need to just take our word for it

Here are some feedback from our customers about Kultura:

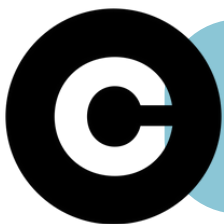

"Payment Center is the most flexible app I have found in the AppExchange due to the complexity and custom objects within our instance. The Kultura team worked with us on our implementation and they knew exactly what needed to be done as we laid out our business model."

T. Myers

"We have found Payment Center to be very helpful and fundamental to our business operations for over five years. It's easy to use and we've never encountered a problem. We would recommend Kultura Payment Center to other businesses."

R. Kohn

"This solution allowed us to quickly roll online payments out to our customers through Salesforce. It's a well designed and easy to implement flexible solution."

C. LaBelle
