Success Story – “Its On The Grid” force.com portal application

<http://www.itsonthegrid.com>

Problem:

Customer wanted to build a subscription-supported website to provide entertainment industry professionals, as well as those aspiring to become film professionals, with an easily searchable database of entertainment industry-related information.

Solution:

Mansa Systems built <http://www.itsonthegrid.com> website on force.com platform using customer portal, visual force, sites, xhtml, css, built in security and sharing features, custom objects. Entire website has been designed and developed in a matter of weeks.

Success Story – “Mission Asset Fund” force.com web portal

<http://red.force.com>

Problem:

Mission Asset Fund wanted to make the intake form accessible to MAF partners via a web portal. The intake form in the web portal must utilize the same scoring mechanism in MAF's salesforce.com instance to produce a list of services clients might qualify for. MAF wanted the portal to consist of the following three outwardly facing web-pages: portal entry page, intake form, results page.

Solution:

Mansa Systems built <http://red.force.com> website on force.com platform using customer portal, visual force, sites, xhtml, css, standard security and sharing features, custom objects. Entire website has been designed , developed and deployed very quickly.

Customer Voice

I can't believe my luck to have found Siva and Aaron and the team at Mansa Systems when I was looking for a technology partner to help me develop www.itsonthegrid.com. Not only do they know the [salesforce.com/force.com](https://www.salesforce.com) platform backwards and forwards, their cost-conscious approach helped us launch on time and on budget. I'm looking forward to moving into our Phase 2 development with them, and I'd recommend them highly to anyone looking for a professional, responsive and expert team of developers.

- **Jason Scoggins, President @ It's On The Grid**

As a small non-profit organization with little experience with Salesforce.com, it was indeed a pleasure to work with everyone at Mansa Systems in developing our project. Mansa Systems' team was extremely professional, inventive and insightful in helping realizing our vision. I fully recommend any organization to work with Mansa Systems' team.

- **Jose Quinonez, Executive Director @ Mission Asset Fund**

Customer Voice

I needed an apex trigger developed in a very short amount of time and was impressed how quickly Mansa Systems' team jumped in to start work immediately, finishing well within our expected timeline. Very professional, courteous, knowledgeable and easy to work with - I would recommend Mansa Systems for any size project and will definitely engage their services again. They shaved hours and dollars off of the assignment - it would have taken us internally weeks to complete, but took only a few days for them. Thank you!!!!

- **Tami Miller, Project Manager @ Regent Seven Seas Cruises**

We had an exceptional experience working with Mansa Systems, they were able to understand and execute our vision. They are very professional, responsive, reliable and affordable. I would highly recommend Mansa Systems to other non-profits that are working on salesforce.com projects.

- **Daniela Salas, Director @ Mission Asset Fund**

Customer Voice

I have worked with Mansa Systems for one of our project and we will be working with Mansa Systems for our future projects. I am extremely satisfied with the quality and service they have provided.

- Anil Samuel, IT Director @ Alliant Group

The logo for Alliant Group, featuring the text "alliantgroup" in a lowercase, sans-serif font with a registered trademark symbol.

Mansa Systems was great to work with. They delivered the project on time and according to design.

- Matt Wood, Channel Manager @ Renewable Choice Energy

Customer Voice

We're very happy with Mansa System's work. Your consultant had a solid understanding of the Salesforce application and third party/freeware utilities that he used in the development process. He attacked and solved problems in a creative fashion. One of the best experiences I've had using outside consulting company.

- **Scott Parker, VP Sales @ Avanex**

I was very pleased with the results of my first salesforce.com customization project with Mansa Systems. The project manager, was very responsive via email and was quick to acquire an understanding of the scope of my project and successfully relay it to his team, who then executed on the programming expeditiously and accurately with very few needs for revision work. We are now working on a second project and we plan to do quite a bit more work with them. I highly recommend Mansa Systems for salesforce.com customization work

- **Jason Krauss, Managing Director @ Home Abroad**
