

A place to start integrating for nonprofits

Billhighway Connect gives nonprofits and associations flexible payment processing that integrates with front and back-end software systems. Users continue to collect data online through multiple channels like member/donor portals, websites or content management systems. Connect eliminates data entry by pushing contact and payment data to back-end systems like accounting, banking, payroll and database software.

Connect Highlights

- **Payment Processing** – *process donations or collect money from your members*
- **Compatible** – *accepts all major credit/debit cards and e-checks through e-commerce, phone, mail and mobile*
- **Integration** – *seamless data integration keeps donor, member, banking, and accounting records clean and up-to-date*
- **Efficient** – *customized dashboard displays provides real-time account and banking information*
- **Upgrades** – *configuration options make it easy to add features from Billhighway's best-in-class accounting and online banking system aligned to the client's needs*

Always Standard

- **Maximizes value proposition** – *natively hosted platform lowers cost structure, provides pricing flexibility while offering 'only pay for what you use' pricing model*
- **Offers peace of mind to non-financial managers and volunteers** – *easy-to-use but still provides sophisticated levels of reporting*
- **BillhighwaySAFE secures financial data with industry-leading protocols** – *PCI compliance, McAfee Secure, Verified by Visa, MasterCard Secure Code, VeriSign Secure and more*
- **BillhighwayCARE delivers world-class customer service and support** – *expert Client Relations team work one-on-one with customers, 24/7 online help, self-service learning resulting in over 96% customer loyalty*

WHO NEEDS CONNECT?

Billhighway's Connect solution is tailored to meet the needs of nonprofits that need to process payments and integrate with other systems. Most Connect clients rely on donations or membership transactions and need a way to seamlessly integrate online, phone and mail payments into a robust financial system, without displacing existing databases and software.

Typical Connect customers are:

- Faith-based organizations
- Nonprofit service organizations
- Nonprofit arts organizations
- Nonprofit education associations
- Nonprofit community foundations
- Colleges, trade schools and K-12 institutions
- Youth and athletic programs
- Political parties, campaigns and groups focused on social change

Connect customers are generally:

- Focused on mission
- Concerned about public scrutiny of nonprofit financials
- Interested in cloud-based infrastructure that requires minimal upfront costs
- Majority of incoming funds are from individuals, donors or members
- Seeking a financial system that will integrate with existing donor/member database
