

Abstract

IMPERIUMTEX is designed for white & dyed, printing and yarn dyed textile mills to have a seamless integration in the process flow from receiving enquiries to issuing contracts, production instructions, packaging and invoicing. In short, a contract can be tracked completely, if desired, from enquiry date to final shipment for all customers.

Description

IMPERIUMTEX incorporates enquiry quotation and follow up, contract issuing, production instructions, color library management, carton and loose packing functions, and delivery document creation such as packing lists and invoices.

Highlights

Name	Description	Type
Customers / Contacts	Includes tracking visiting and buying trips and contact preferences	📅
Customer Orders	Generates contracts for white and dyed orders, printing orders and yarn dyed orders.	■ 📅
Production Orders	Provides coloring requirements, technical, packaging, sampling, finishing and shipping and LC documentation instructions	■ 📅
Color Library	Tracks color submissions, monitors lab dip and hand loom schedules and approval dates and shades. Links to Customer Orders contracted.	■ 📅
Greige Items	Maintain record of all greige items used, includes fabric composition calculator and technical specifications.	■ 📅
Greige Specs	Records the test methods and technical specifications for each Greige Item, enabling Test Reports to be issued.	■ 📅
Yarn Dyed Items	Maintain all yarn dyed items details, allows up to 6 warp and 2 weft yarn count density input.	■ 📅

 ≡ = Plug-In, ✕ = Composite Component

Features & Benefits

- **Work Flow Approvals** ensure key documents such as Contracts, Production Orders, Greige Items, Greige Costs and Finish Types are approved before company- wide usage.
- **Enquiries** allow tracking of enquiries received, quotations made and validity dates with email notification and reminders.
- **Invoices / Packing Lists** are automatically generated from loose or carton packing functions.
- **Fabric Composition Calculator** automates the calculation of fabric composition for new greige items.
- **Test Reports** based on Greige Specs can be printed for customers.
- **Greige Costs** incorporating Factory Costs and system generated formulas automate and update greige costs for greige items.

Key Reports & Dashboards

Name	Description
Orders Booked	Report on all Customer Orders Booked for Year-to-Date including Quantity Totals, Product Items and Prices
Items Booked	Report on all Greige Items Booked for Year-to-Date including Finish Types, Customer and Customer Order Totals.
Lab Dip Requests	Report on total number of Lab Dips requested to Laboratory including Customer, Customer Order and Greige Item details.
