

USER GUIDE

POST-INSTALL SETUP IS REQUIRED

Please make sure you have fully configured our app using our post installation guide. Follow step by step instruction and give specific permission to the users, profiles and Roles.

- Here is our post install instruction https://webider.com/myfav_user_guide.
- After complete the post install now see the beauty of our app

MY FAVORITES BENEFITS AND OVERVIEW

OVERVIEW

Just ONE CLICK! Yes, this app allows you to bookmark any page or task or URL in Salesforce.com with just One Click with salesforce1 ready. You'll love the way it speeds up things for End Users and Admins, An admin faces the obstacle of having to keep multiple browser windows open just to manage daily common tasks. While an end-user has to bear the frustration of clicking the mouse multiple times to search and manage customer accounts, hot leads, or opportunities.

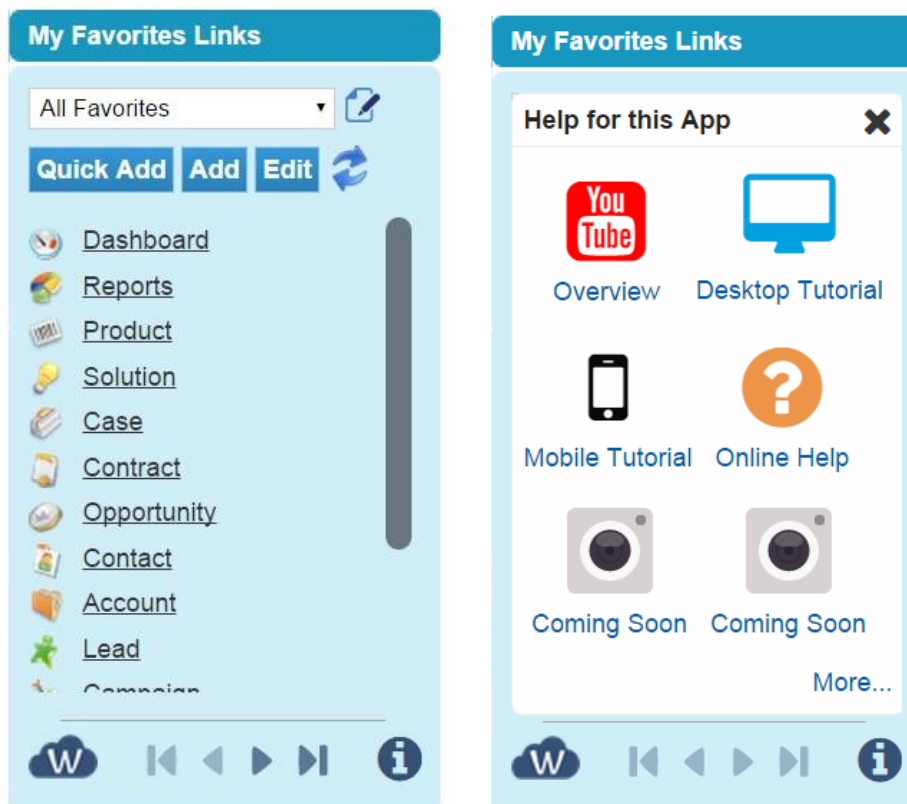

WHEN YOU INSTALL 'MY FAVORITES' APP YOU WILL SEE TWO NEW TABS

- Getting started
 - This tab shows the instruction and helpful I links
- My Favorites
 - This tab allows you to manage (Add/Edit/Delete) your bookmarks
- My Folders
 - This tab allows you to manages (Add/Edit/Delete) your Folders
- About My Favorites

- This is a web tab that shows you the dedicated website for My Favorites to get more information on this app e.g. videos and other guides and how to get in touch with Webider LLC for any support and questions

YOU WILL ALSO SEE A NEW HOME PAGE NARROW COMPONENT ON THE LEFT SIDE NAMED 'MY FAVORITES LINKS'

- This allows you to quickly add any page, URL, or component in Salesforce.com to your personal bookmark list with just One Click in selected Folder
- In addition, you will see Quick Add, Add and Edit buttons on this widget to help you manage the bookmarks
- The widget have < left and > right arrows to navigate between the your bookmark list
- 'i' icon, it will popup help links within the home page components. In the future release we will be providing configurations to the customer to link their own training videos and icons.

VIDEO DEMO

For a Quick Demo please see this video on YouTube: <https://webider.com/MyFavDemo>

WHAT'S NEW IN CURRENT VERSION

- Add your records in salesforce1
- One-Click access to your favorites shortcuts on any mobile device with Salesforce1 icons
- Share Folders with Favorites in Salesforce and SF1
- Use Salesforce1 mobile app on any iOS or Android device to access your favorites links
- Add multiple records From list View in Selected folder
- Home Page Left Component Upgrade from 'HTML' based to 'Visualforce' based
- 'Master List' folder is renamed to 'All Favorites' and displays all favorites links across all folders
- Salesforce1 now displays the Mobile Icons for all favorites links
- Mobile SF1 page now provides more real state
- Performance & Security Improvement
- Mass Actions (Active/Inactive/Delete) buttons performance increase via bulkification
- Cascading Mass Delete, Mass Active, and Mass Inactive buttons to delete/active/inactive related URL'S
- Validation rule for Status and Behavior field for 'None' value
- New "Clone W/Favorties" button for folders to clone any folder with related favorites
- Clone W/Favorites in SF1
- Fix for Home Page component refresh when you delete or active or inactive a folder

MY FAVORITES BENEFITS

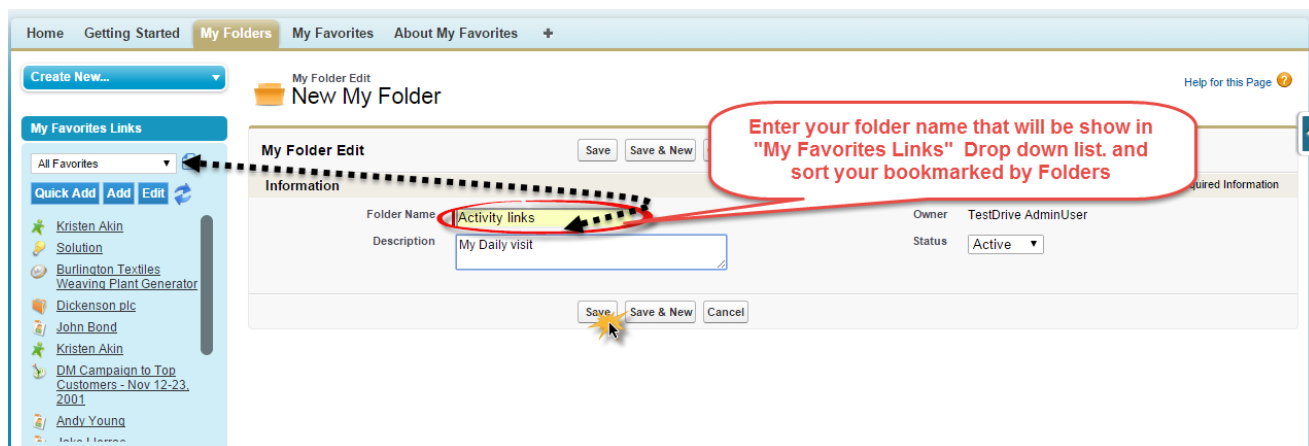

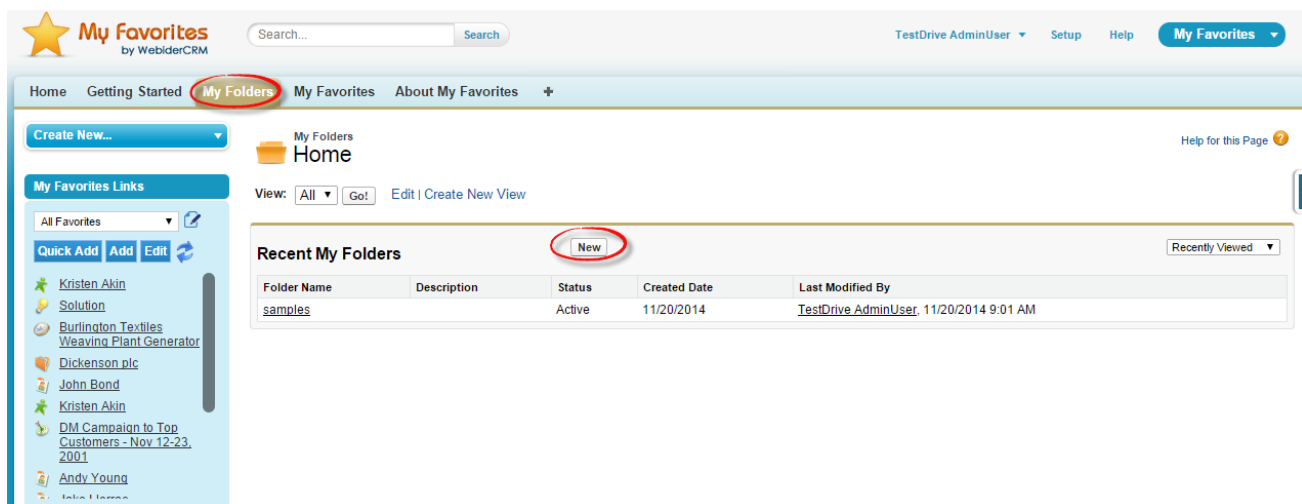

- Click Edit icon access to edit the folders list and add/edit/delete folders
- Quick Add button add current page as new Favorites shortcuts with Auto populate label of the Records
- Add button Add any external or internal URLs manually and if you select any folder in populate auto folder name in "Folder Name" Field
- Edit Button give quick access to edit the URLs in the selected folder in the pick list
- Auto Scroll to view more than 10 URLs. the default list =15 but it can be configured
- Mini icon display based on the object type & STAR icon for any external or custom objects URLs
- Add Support in widget click access to Webider Support via sending us the message right within widget
 - *this Setting can be enable or disabled based on your needs
- Save CLICKS, Save TIME, and SELL More
- One-Click away from your daily tasks, instead of seeing only last 15 recent items
- Create your own unlimited bookmarks in Salesforce
- Create multiple folders to organize your Favorites links
- Define your own sort order to selected URLs
- Mass Delete multiple URLs
- Mark any Folder or URL Active / Inactive
- Mass Active or Mass Inactive multiple URLs
- Convert multiple clicks into just ONE-CLICK by making it a favorite link
- Bookmark any of your opportunity, task or account and easy to remember
- No more spending time to track your leads or opportunities
- Add any custom internal or external link of your choice to your Favorites Links
- Choose the behavior of opening a link in a new window or existing with sidebar
- Quick and easy page navigation within the narrow component to view all your bookmarks
- Last but not least, no more limit to seeing the last ten recent items. Bookmark any number of your favorite links you like and view them all
- New "Clone W/Favorites" button for folders to clone any folder with related favorites

- Clone W/Favorites in SF1
- Share Folders with Favorites in Salesforce and SF1

ADD NEW FOLDER

To add new folder for you favorites just goto "My Folders" tab and then click on new. By default "All favorites" contains your all bookmarked.

- Enter the Folder name
- Enter the description
- Select the Status
- Click Save
- You will see the new Folder appear on the left home page widget Dropdown list.

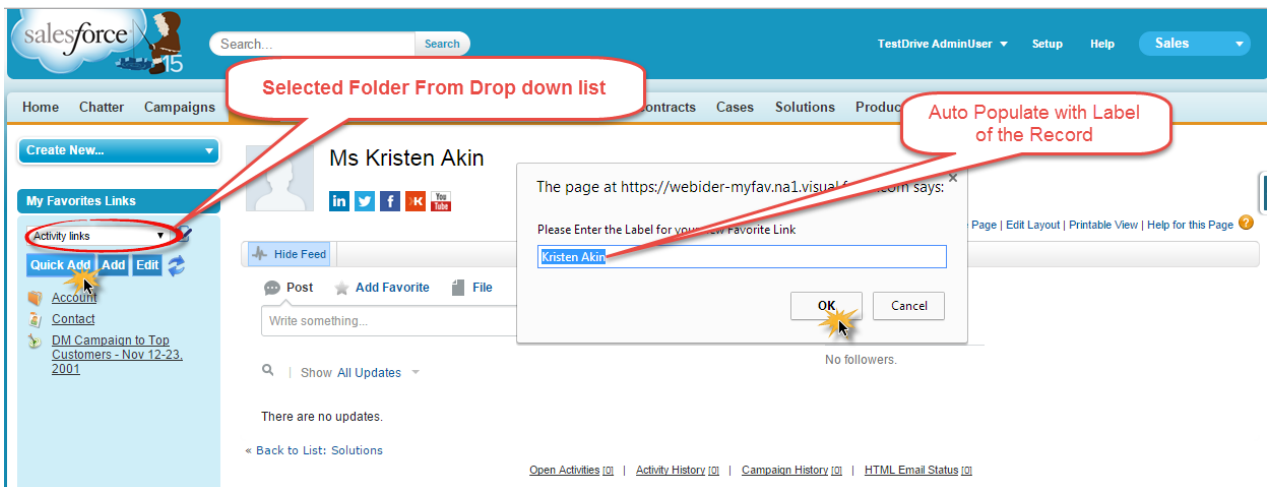

ADD NEW FAVORITE

To Add a new Favorites (bookmark) you can do it in 6 different ways

- Using Narrow component "Quick Add" button add record on single click.
- Using Narrow component "Add" button add record to selected Folder.
- Click on 'My Favorite' tab > Click on 'New' button
- Add multiple Records at once from list View
- Add Record From Chatter.
- Add Record through SF1 using publisher Action

QUICK ADD ON NARROW COMPONENT

"Quick Add" button on narrow component allowed you to add record as you're bookmarked in your selected folder. Any record in Salesforce bookmarked with just one click.

ADD ON NARROW COMPONENT

Using narrow component "Add" button add any external or salesforce internal url in selected folder.

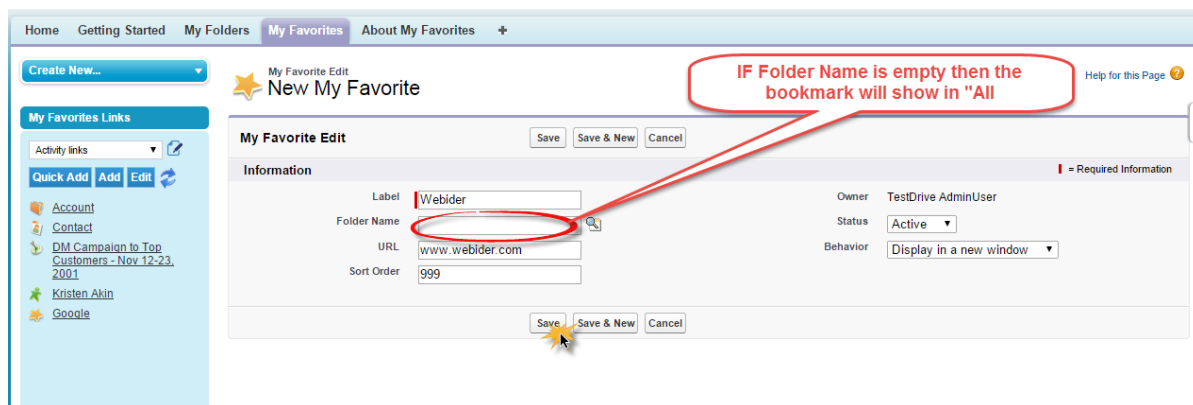

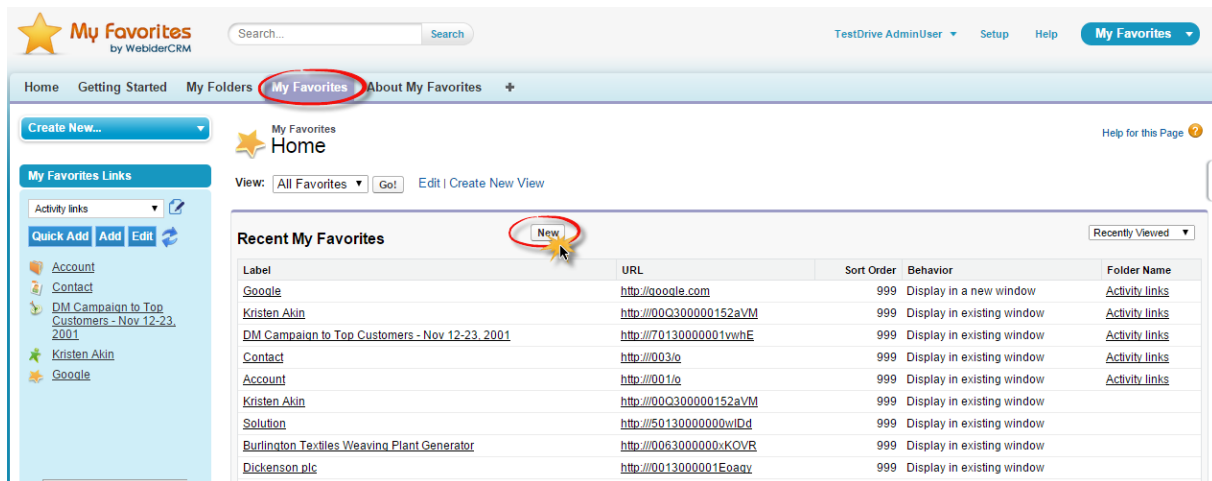

The first screenshot shows the 'My Favorites Links' sidebar on the left. The 'Activity links' folder is selected and circled in red. A red callout bubble points to it with the text 'Selected Folder "Activity Links"'. The 'Add' button in the sidebar is also circled in red.

The second screenshot shows the 'New My Favorite' form. The 'Folder Name' field is circled in red and contains the text 'Activity links'. A red callout bubble points to it with the text 'Folder Name Keep your Selected Folder'. The 'Save' button at the bottom of the form is also circled in red.

NEW RECORD USING MY FAVORITES TAB

Using "My Favorites" Tab create new record. Add any internal or external URL to your bookmarked list. Click on new Record.

- Enter the bookmark information by giving it a label
- Enter any internal or external URL
- Select Any folder
- Select the Status
- Select the behavior of your choice
- Click Save
- You will see the new link appear on the left home page widget

ADD MULTIPLE RECORDS AT ONCE FROM LIST VIEW.

Bookmark your multiple records at once in your selected folder. By Default we give you "Add to Favorites" button on Account and Contact object. But you can create button on any standard or custom object. We gave our code in post install doc, for custom button.

The page at <https://na10.salesforce.com> says:

13 record(s) bookmarked to My Favorites "Top Accounts" folder.
Please click on Refresh icon in the left home page component to see recently added favorites links.

OK

After click on refresh icon see the selected records in your selected Folder List. This button help you to bookmark your top Accounts, contacts, Leads, opportunity etc. by just 1 click you can add All selected records and Access All records through your side bar Narrow component.

ADD RECORD FROM CHATTER

By using chatter you add your all records even your group. And saves the bookmark in your selected folder. It's save in "All Favorites".

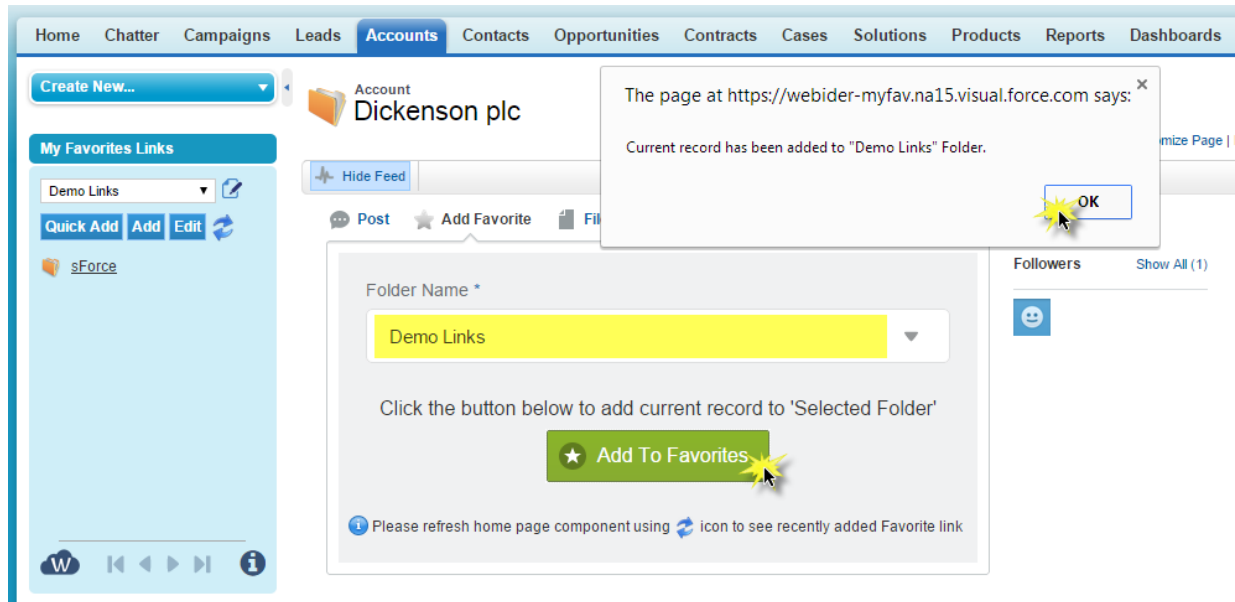

FIRST I SHOW YOU HOW TO ADD GROUPS IN YOUR FAVORITES.

Navigate to the group and click on "Add to Favorites" Chatter Button.

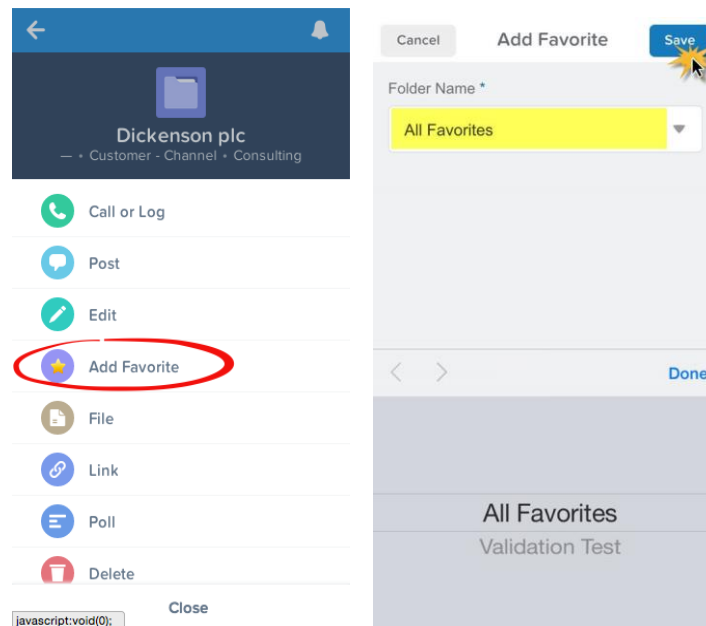

NOW ADD CONTACT AS FAVORITE USING CHATTER

Navigate to your Account details page click on "Add to Favorite" chatter button.

BOOKMARK YOUR RECORD THORUGH SF1

Salesforce1 Mobile App View of Publisher Action when you are on a record, click on "Add Favorite" then click on continues.

MASS OPERATION ON MY FAVORITES & MY FOLDERS

There are three mass operation buttons available on both. "Mass Active", "Mass Inactive", "Mass Delete". It helps to save your time and improve your productivity.

Note*: if you active, inactive or delete any folder it effect the bookmarked associate with the folder. If you inactive any folder or child record will be automatically inactive. And will not show in narrow component. If you delete any folder all child record will be deleted.

MY FAVORITES MASS INACTIVE

You can Inactive multiple records at once using list View button called "Mass Inactive" once you inactive the bookmarks. These bookmarks will not be show in "My Favorites Links" Component.

The page at <https://na1.salesforce.com> says:

Total 2 record(s) STATUS has been made Inactive
