

Filling the Talent Gap With Smart Cloud Resourcing

FusionExperience's Cloud Recruitment and Resourcing services are designed to help clients respond to the peaks and troughs of business or project life cycles and gain access to Sales Cloud, Service Cloud and force.com resources quickly and at cost effective rates.

Benefits of working with us

- First hand experience of recruiting and resourcing for Cloud and Salesforce.com solutions. This includes running major recruitment and resourcing programmes; our most recent for a global technology company
- Talent sourced through market networks, our principal associate programme, expert alumni connections and a growing pool of over 90 Salesforce.com qualified people
- Onshore: a dedicated team of experts with a deep understanding of the recruitment and resourcing programmes needed for the Cloud
- Offshore: access to over 200 experienced configurers and developers with an average of 3-5 years' experience available using a flexible and on-demand resourcing service
- Provision of guidance and bespoke resourcing analysis by our Cloud consultants, which will determine the best-fit solution for you
- A trusted partner who can guide you through each stage of implementing and supporting your Cloud recruitment and resourcing needs

What we offer

- Permanent and contractor resourcing across EMEA
- Project based resources for new implementations, either individually or complete teams
- Flexible resources on a demand basis for configuration, development and support
- Managed contractor services and outsourced functions to keep your management overheads down and provide consistency of service for both development and support
- On and offshore Salesforce certified resources to keep your costs down
