ENABLEPATH
A Birlasoft Company

Up & Running in No Time Flat

EnablePath has been a leading provider of quality Salesforce.com services since 2006, with over 1,000 customers and 2,000+ Projects. Our team of Certified Cloud Experts bring a wealth of real world expertise to your projects. EnablePath offers a full suite of Salesforce specific professional services ranging from Best Practices consulting, Implementation and Custom Development on the Salesforce1 Platform.

Our Salesforce certified teams have been implementing high quality, customized portal solutions within the Salesforce1 platform for years. Our Agile methodology, coupled with years of cross industry experience, can guide any size organization in the Strategy, Design and Implementation of Customer or Partner communities both externally and for internal Intranets.

the QUICKPATH to COMMUNITY CLOUD SUCCESS

- **Functional Solution Design**

BUILD
- ✓ **Custom** Profiles
- ✓ **Security** & Sharing
- ✓ **Data** Category
- ✓ **4 Tab** Community
- **Sandbox** PROTOTYPE

VALIDATE
- **Prototype Community Review**
- ✓ **Deployment** Preparation

DEPLOY
- Deploy Community to **Production Org**
- **Successful Community!**

NOTE: The scope of the project depends upon the package selected. Your QuickPath engagement may not include some of the elements above.

Community Cloud QuickPath Details

EnablePath will work closely to align your Community Cloud strategy and requirements with a right sized engagement. EnablePath can also deliver strategic planning and solution blueprinting as a stand-alone engagement. As the Analyze phase is a critical component of any engagement, conducting a Business Process Review and Requirements engagement can be leveraged to define the Community Cloud strategy, phased requirements priorities and more accurate level of effort budgets in advance of a project implementation.
