

Fundraising for Enterprise Nonprofits

NGO Connect is the constituent centered fundraising solution that helps enterprise nonprofits build and nurture life-long relationships with constituents.

“ Within two months, we received 1,000+ online volunteer applications. ”

Previously, all individuals would fill out a paper application. ”

Natalia Lopez - Senior Program Officer at International Rescue Committee

Constituent Relationship Management

To raise more funds and accelerate mission achievement, nonprofits must become constituent centered. NGO Connect empowers you to establish a 360° view of each constituent so you can engage on a deeper, more meaningful level and build life-long relationships. Save and share all constituents' information in NGO Connect to keep track of preferences, relationships, social identities, interests and more.

Online Fundraising

With NGO Connect's integrated online fundraising capabilities, you can fundraise online and offline in realtime. No need to create data silos with an online fundraising application from a third party.

Gift and Payment Processing

Use a single application to manage the entire giving cycle for individuals and organizations with individual gifts, sustaining gifts, major gifts and planned giving, and enable your organization to collaborate around your constituents' support for your cause. roundCorner maintains PCI DSS Version 3 standards.

Event Management

Eliminate paper-based processes, and seamlessly plan and execute events with NGO Connect's event management solution. It provides for every little detail: from RSVP tracking and managing event calendars to creating seating charts and enabling online ticketing. Let staff generate real-time status reports at a click of a button, so they can plan and execute your events.

Volunteer Management

Recruit new volunteers more easily with online recruitment and manage volunteers from one central place within your fundraising and CRM solution. Schedule, monitor and easily change volunteer shifts and events, and enable them to log hours and mileage using their smart phone.

Reporting

Leverage more than 250 editable reports and dashboards to gain better insights into your organization's fundraising and CRM progress. Measure real-time impact in a way that works best for you.

Seamless Integration

NGO Connect is interoperable with applications from the Salesforce AppExchange, the world's #1 marketplace for business applications. No coding required!

Customizable to Your Organization

roundCorner can customize NGO Connect on the Salesforce® platform to meet your organization's unique needs. We dedicate each day to changing the way you change the world by helping you achieve long-term operational and fundraising success.

About roundCorner

roundCorner enables enterprise nonprofits, universities and foundations to unlock faster time to value on the Salesforce® platform with fundraising and grant management applications.

roundCorner is a Salesforce Platinum ISV Partner and the only Salesforce.org Platinum App Partner for the enterprise nonprofit market in North America.

In 2016, roundCorner committed to integrated corporate philanthropy by joining Pledge 1%, a movement that encourages companies to contribute a portion of their future time, product and profits to support philanthropic organizations in their communities.
