Key Focus

MULTI-CLOUD

Extensive expertise in consulting, designing and implementing complex multi-cloud projects involving Salesforce Commerce, Sales, Service, Community and Marketing Clouds.

UNIFIED COMMERCE

Developed a unique product built natively on Salesforce that provides a 360° view of customer data. We help retail brands provide exceptional customer service through complete shopper visibility in the Sales/Service Cloud. The Single-Sign-On and in-context commerce Lightning components connect Commerce Cloud with Community Cloud. Commerce cloud data is used in the Marketing cloud for personalization and automation.

CUSTOM PROJECTS

Skilled in the development of tailor-made solutions. Our extensive experience in working with Force.com, APEX, VisualForce, and in building Lightning components and API integrations ensure we're able to deliver customized projects successfully.

Key Differentiators

PROVEN EXPERTISE

with Commerce Cloud & Core Salesforce
