

Badger for Sales Manager

See your sales team's territory. Filter and color your Salesforce data to uncover the best opportunities for every rep on your team. Badger gives you a complete overview of your team's performance, helping each rep drive 20% less and sell 25% more.

Sync with Salesforce

Badger enriches your Salesforce data and makes it actionable in the field. Your sales team can use Badger to find leads, optimize routes, schedule appointments, and update account details. Badger's easy-to-use mobile app syncs it all back to Salesforce instantly.

Automate Sales Reports

Track your team's progress with custom check-in reports. Badger enables your team to collect the data you need to see from every sales meeting. You'll receive weekly reports via email (also available on-demand) and every check-in syncs to Salesforce as an activity.

Optimize Territory Management

Create and optimize sales routes in seconds. Badger shows mileage and account stats for every member of your team. Easily reassign accounts and allocate resources from any device.
