

A new vision for ERP

(913) 752-9145

Unlike traditional ERP systems, Kenandy gives you the freedom to innovate products, services, operations, and relationships.

- Calculate and plan what to buy, make, sell and fulfill to meet your customer demand.
- Complete integrated ERP—Order-to-Cash, Procure-to-Pay, Planning and Production, Global Financials
- Global foundation—multilingual, multicurrency, multi-country, and multi-company
- No hardware or software to buy or install—true multitenant Software-as-a-Service (SaaS)
- Scalable per-user per-month price—no large up-front costs, no maintenance fee
- Fast Deployment—implementations as fast as 90 days with rapid “see-it-as-you-go” sprints
- Templatized implementations—standardize business practices across subsidiaries or geographies

NeuNet Consultants is a certified Kenandy Implementation Partner and a Registered Salesforce Consulting Partner. We will help you implement cloud ERP and get the most from Salesforce using these steps:

- **Initiate:** plan and schedule project details with NeuNet Consultants
- **Analyze Data:** examine current operational systems, model and analyze data sets
- **Map Your Processes:** review your existing business processes and IT workflows
- **Agile Build:** design Kenandy’s cloud ERP for your specific business needs
- **Validate And Train:** execute system testing and prepare team members for the go-live
- **Operate:** launch and support your success with Kenandy’s cloud ERP

Features

Order-to-Cash

Maximize sales and revenue by accurately managing quotes, pricing and orders.

Manufacturing

Boost output and speed products to market through more efficient production and inventory management.

Supply Chain

Optimize procurement and eliminate waste by automating purchasing and materials management.

Global Financials

Close your books faster. Reduce reconciliation errors. Make better, more timely business decisions using detailed, up-to-the-second financial information.
