If you're looking to upgrade your tenure and promotion system with a solution that is collaborative, both internally & externally, flexible & reliable we have the answer for you! Our solution provides these enhancements without sacrificing privacy, ease-of use, or your institutions data management policies.

The Servio tenure and promotion solution simplifies the process for a candidate to self-manage their dossier and enables key colleagues and staff to interact with a candidate's application while maintaining the appropriate security level for each user.

Servio's team of experts will work with your team to understand your current processes and pain points. We will then show you how those integrate into one easily accessible application which sits on your current Salesforce Platform.
