

Salesforce Integration

ContactMonkey is a simple and elegant tool that helps sales organizations close more deals and increase Salesforce adoption. We help you track customer engagement and update Salesforce right from Outlook or Gmail.

Create, Edit and Update Salesforce right from your Inbox.

Save up to 45 minutes a day logging Salesforce activities and remove user error.

Access your Salesforce templates from your inbox.

We support cross object merge fields. So you can personalize generic emails.

Custom object support.

View and edit your Salesforce Custom Objects straight from our Side Panel.

Add emails to salesforce with 1 click and sync calendar events.

Add your emails anywhere you need to in Salesforce, straight from your inbox.
