Ongoing Support

Nimbostratus provides high quality Salesforce expertise to ensure you are successful with Salesforce, and get the most out of the world's most popular cloud customer relationship management system. Whatever the scale of your implementation Nimbostratus will guide you with specialist Salesforce consultancy and strategic direction to see you triumph.

At Nimbostratus we have implemented Salesforce since 2009 working alongside leading Salesforce partners and businesses across multiple industries; ranging from well-known media brands and global financial institutions, to non-profit organisations and local independent businesses.

We have also become known as thought-leaders in the Salesforce ecosystem through regular speaking appearances at Dreamforce, the annual Salesforce conference in San Francisco, Salesforce World Tour London, and the Bristol Salesforce User Group, as well as through our work with Salesforce University.

We are based in London and Bristol, and we operate throughout the UK and Europe.
