

*"The team at Nimbostratus did a fabulous job of setting up our Salesforce system. They not only took the time to fully understand the brief, they also enhanced and improved upon our initial requirements. The system they have done for us has exceeded all our expectations.*

*THANK YOU NIMBOSTRATUS!"* **Rob Burnell,**  
**Founding Director at Normans Bookkeeping & Payroll**

*"Nimbostratus worked with our team for around 4 months, and what a difference they made in that time! I am more than happy to recommend them for all future endeavours and I hope that our paths will cross again!"*

**David Morris, Product Owner, The Daily Telegraph**

*"Nimbostratus know Salesforce inside and out, have been a useful reference and sounding board for ideas, and a source of solutions to problems we couldn't fix on our own. I'd recommend them to others looking for someone who will guide them, very gently, through the complex and sometimes bemusing world of Salesforce."* **Gerard Hutchings, Head of Business Development Strategy & Operations at BlueBay Asset Management**

*"The Salesforce launch was a tremendous success, and the implementation is something the organisation really engages with."* **Nick Hendry, Head of IT at National Children's Bureau**
