OVERVIEW

The General Data Protection Regulation (GDPR) introduces vast changes to how enterprises around the world collect, process, store, and protect the personal data of EU citizens. GDPR is a new, comprehensive data protection law in the EU (European Union) that greatly strengthens the protection of personal data. GDPR expands the privacy rights of EU individuals and places new obligations on all organizations that market, track or handle EU personal data.

ABOUT CONFIDENTG GDPR COMPLIANCE MANAGEMENT

The underlying principle of GDPR is that any Data Processing needs to be Lawful, Fair and Transparent, which will directly impact how Businesses use and share data.

Confident Governance provides an Enterprise wide GDPR Compliance Management Solution that puts People and Processes first. ConfidentG Agile GDPR Compliance Management solution, built on #1 Cloud Computing platform Salesforce.com, has powerful functionality of Anytime, Anywhere and Any Device Governance, which makes Compliance an Easy and Intuitive Process.
