

PwC's Learning Center

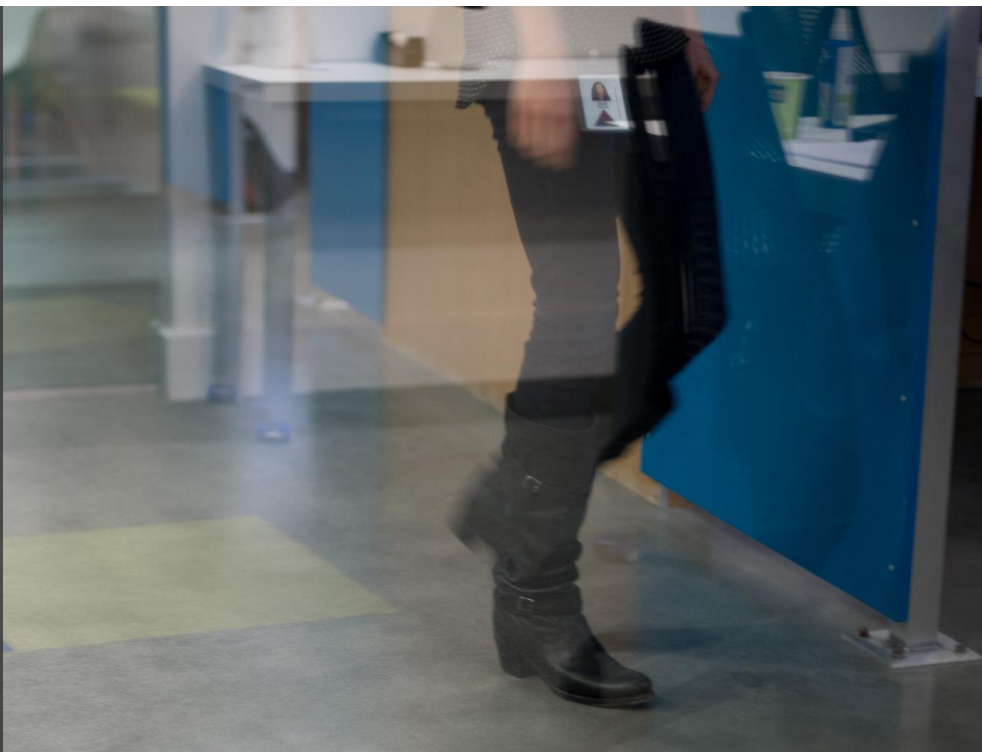

Empowering PwC resources through a new learning & development portal

PwC's Learning Center, *powered by* Salesforce, helps employees to streamline their certification efforts by providing a collaborative and centralized source of knowledge articles, Trailhead badges, voucher requests, and practice exams. The solution provides suggested exams based off previous certification, practice aids and study guides, and a calendar of trainings with the ability to register for upcoming events.

Solution benefits

- Integration with web assessor and trailhead for seamless certification and trailhead badge tracking, including added visibility for leadership team
- Employees can find all resources needed to complete a certification in one single landing, including: general exam information, knowledge articles, related Trailhead modules, practice exams, and an automated voucher request option.
- Automated certification voucher request and approvals
- Collaboration and gamification to encourage certification progress
- the Community is built using Lightning Bolt components, allowing for quick customization of the Community to meet a client's specific use case or L&D goals
