

Field Audit Trail Cockpit

Use Clicks, Not Code with Salesforce Field Audit Trail

Powered by RevCult

Salesforce Field Audit Trail is an API-only feature to manage your Data Retention Policies...until now. Field Audit Trail Cockpit reduces the time to implement your Data Retention Policies and removes the necessity for a developer to implement your policies.

Easily review the current status of your Field Audit Trail configuration, make updates and apply them to your metadata in this central location. Our app provides the necessary user interface to use clicks, not code with Salesforce Field Audit Trail.

Key Benefits

Gain insights to Field Audit Trail Data Retention Policy configuration

Reduce time to implement Field Audit Trail Data Retention Policies

Elevate your Security Policies to a business-facing priority

Update Policies
