Aga Khan Foundation Global

- Education programs in 16 countries, supporting ECD through high school
- Tracking 6000+ schools, 2000+ teachers, over 1M students enrolled
- New Global Reach System tracking indicators, results across countries, programs, and sectors

Aga Khan Foundation Global Education Management Information System

AGA KHAN FOUNDATION An agency of the Aga Khan Development Network

"GEMIS now allows us to **step back**, ask **questions**, and be far more **creative** about the way we use numbers to help us improve the **quality of education** for children and young people, globally."

- Alison Joyner, Global Lead for MERL

Introducing Amp Impact

Amp Impact

Built on 7 years of experience and 20+ NGO performance indicator systems

- Collaborate and collect performance data on a flexible, user-friendly platform
- Visualize and report performance and progress to stakeholders
- Track disbursements, budget, and expenditure for grants, projects, and program
- Customize, configure, and integrate to meet your organization's unique needs

In Our Clients' Words

"The system has truly streamlined our grant management – saving us hundreds of hours, enabling us to get much more out of our data, and helping us maximize the impact of our time, energy and funds."

"I've been in the non-profit space for 10 years and worked with many consultants and **Vera are, without a doubt, the best**. Smart, creative, hard working with exceptional can-do spirit."

"Our experience with Vera was excellent. They were responsive and flexible with our evolving requirements and worked incredibly well with multiple vendors throughout the engagement. We feel very fortunate to have found Vera and are pleased to continue to partner with them."

"Working with Vera was fantastic. They were always responsive, Global TB Caucus always helpful, and did everything to ensure that the implementation was a success."

In Our Clients' Words

Young Audiences New York "Partnering with Vera has allowed us not only to enhance our Salesforce capabilities, but **become masters of our own data** and how we manage it. Their knowledge and implementation have increased our Salesforce data entry efficiency and staff comfort levels!"

"Vera is extremely dedicated to their clients. You can always count on them to find solutions to your issues."

An agency of the Aga Khan Development Network

"I can't recommend Vera Solutions enough. They are smart, dedicated, honest professionals who will help your organization leverage the Salesforce platform to get the most out of your data and impact."

"Working with Vera has enabled AKF to capture, aggregate and analyze data across its global programs, helping **inform strategy development**, **program design and external communications**. Vera has collaborated effectively at every step of the journey from discovery sessions in Kenya, trainings in Egypt and India, and pilots in Afghanistan to presentations in San Francisco and Oxford."
