

GoSign for Salesforce

GAIN EASIER AND MORE EFFECTIVE COLLABORATION IN YOUR ORGANIZATION, SPEED UP THE SALES CYCLES, CLOSE DEALS FASTER IN THE CONTRACT PROCESS AND IMPROVE THE LEVEL OF CUSTOMER RELATIONSHIP WITH GOSIGN FOR SALESFORCE.

With GoSign for Salesforce Sales reps, Customers and Employees can manage digital signature of documents, send, track, and sign contracts – anywhere and on any device - directly within Salesforce, and benefit from comprehensive capabilities of InfoCert GoSign.

- **Sales reps** can easily create contracts, send them for signature and monitor approval status without leaving Salesforce
- **Recipients** can sign documents in any moments and from any device, without downloading and installing any software
- **Secretaries** can populate documents from existing Salesforce data, create forms by simply dragging and dropping data fields from Salesforce or use and save templates, and send documents for e-signature as easy as sending a Salesforce e-mail.

GOSIGN & SALESFORCE: E-SIGNATURE YOU CAN TRUST TO SPEED UP YOUR DEALS

GoSign represents InfoCert solution for electronic signature at multiple trust levels:

ELECTRONIC SIGNATURE

For low risk transaction and internal approvals, quick and easy to use.

ADVANCED E-SIGNATURE

Good compromise between trust and UX, based on digital certificates.

QUALIFIED E-SIGNATURE

High level of trust, based on a Qualified Certificates issued by CA.

Integration between Salesforce and GoSign makes any workflow or approval simple, secure, fully digital and allows to sign and send documents in a fraction of time.

- Merge Salesforce data into documents and map signer data back to Salesforce;
- organize signing workflow and manage any kind of approval on the web and from any device with full legal value;
- send, sign, track and file contracts quickly and securely with electronic or qualified signature;
- keep workflows under control with real time tracking;

- automatically store and file signed documents directly in Salesforce.
