

Discover the power of location with the **ULTIMATE Vehicle Telematics & Tracking Solution for Salesforce®**

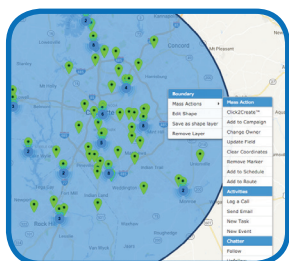

MapAnything Live enables Location of Things (LoT) workflow inside Salesforce®. The solution provides unprecedented business process automation using real-time sensor information in combination with Salesforce® records and business rules.

Transform Salesforce® into a business command center.

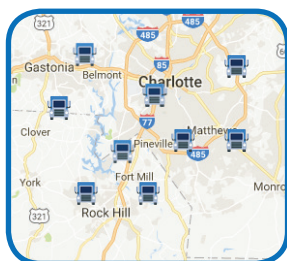

- Track and record vehicle diagnostics data in Salesforce® for safety and compliance
- View vehicle and asset location and statuses in real-time
- Assign and close work orders and cases faster
- Improve fleet utilization and identify new revenue streams
- Reduce overall TCO

Field Service

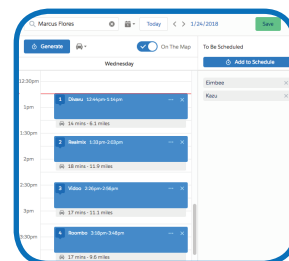

Manage customer data, dispatch vehicles, and optimize routes from a single platform.

Vehicle Telematics & Tracking

Improve fleet productivity with real-time knowledge of location and performance of vehicles and assets.

Field Sales

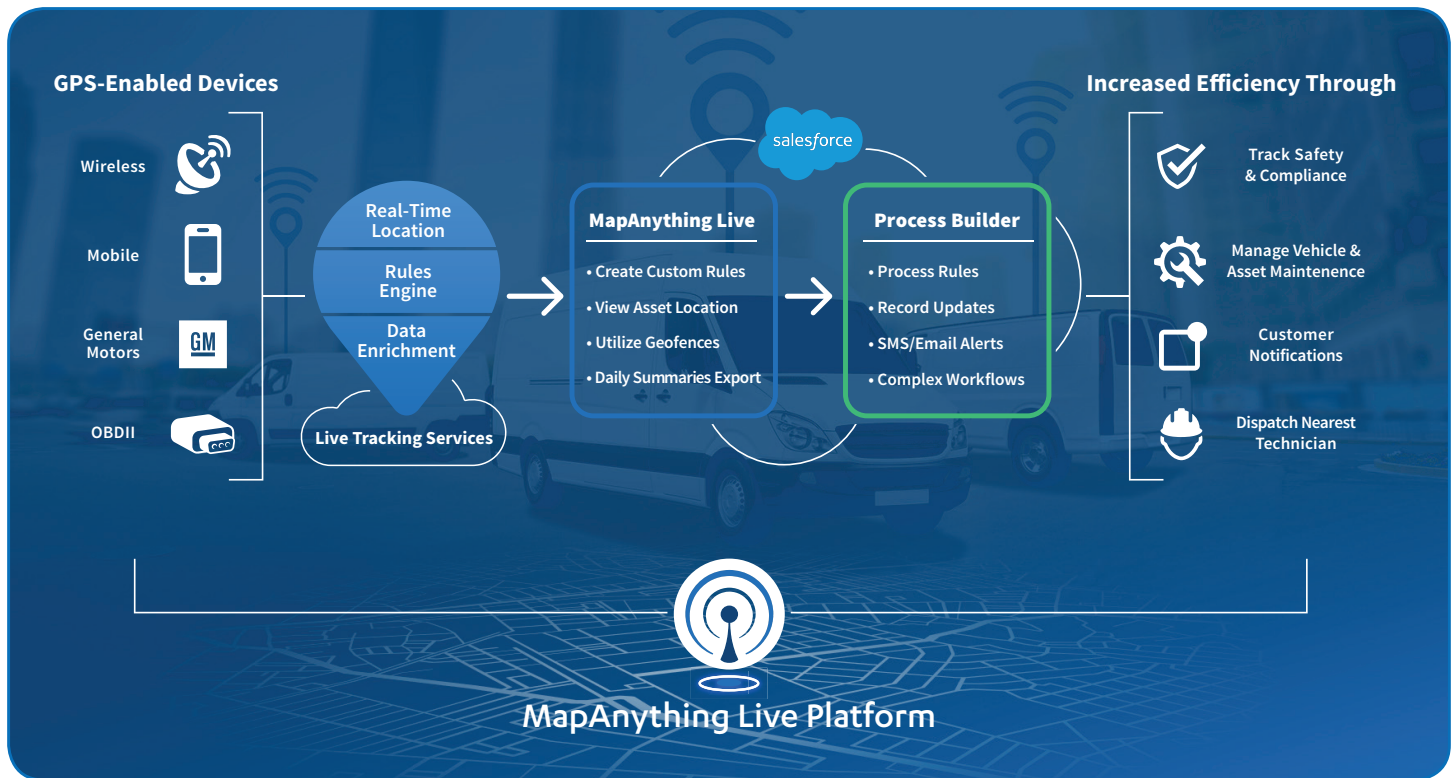

Automate activity logging and spend more time selling.

MapAnything Live is more than an app; it's a CRM-driven telematics experience.

We offer more than just maps and vehicle location. We offer comprehensive business solutions for field service and sales teams that deliver results.

“

“MapAnything is a game-changer. It impacts our bottom line by enabling us to make better decisions. As a result, we get more work done with the same number of trucks, save on labor, fuel and maintenance costs, and our customers are happier. We are now an on demand service, but the only way we were able to become an on demand service, was because of MapAnything.”

- **Joseph Cardella**, Senior Vice President at Cardella Waste & Westside Environmental
